FAKULTÄT FÜR GESUNDHEITSWISSENSCHAFTEN BRANDENBURG

Questionnaire:

The newly founded Faculty of Health Science Brandenburg aims to hire upcoming experts in their field of expertise. Scientific metrics including cumulative impact factors, h-index and others can only provide evidence of scholarly excellence to a limited extent. We created this questionnaire to give you the opportunity to explain your work to an educated audience that is not limited to experts from your field.
Please answer the following questions clearly and precisely with no more than 1000 characters for each question.

1. What is your field of research interest?

2. What is your most important scientific contribution to your field thus far?

3. What are your four most important papers and why do you consider them the most important? (Explain in max. 1000 characters for each paper)

1.

2.

3.

4.

4. What research activities do you have planned for the next five years?

5. How have you worked on creating transparent and reliable research, and have you implement good scientific practice?

6. How much do you value science as a team effort? What are your most important collaborations?

7. What are your interactions with actors from the health system (patient care, policy panel, etc.) or industry?

8. Do you have relevant patents or other forms of scientific achievements (such as codes or programs or other)?

9. What is your contribution to educationally valuable teaching?

10. Have you been involved in academic self-government? If yes, please explain your role.

11. Are you active in communication of science? How and where?

12. What is your view on gender equality and diversity in science? What are your plans regarding addressing inequality?

13. How will your research contribute to the new Faculty of Health Science in Brandenburg?

14. Have you experienced academic delay times since receiving your doctorate degree? (Voluntary information) We wish to acknowledge special personal circumstances that had a significant impact on your ability to pursue scholarly or scientific work; e.g. pregnancy, adoption, parental leave, care duties, inability to work due to acute or chronic illness, disabilities or accidents, services that benefit the general public, particularly military, ecologic or civilian services, continuing education or language acquisition, non-scientific activities, clinical activities, part-time work, unemployment, escape, expulsion or migration, pandemic-related reasons.
Please provide details and, if possible, attach evidence.

Total delay in months:
