Details

Draft Mou: oc-2012-1-11757	Mou: IS1207-MoU
Start of Action: 28/03/2013	Entry into force: 30/11/2012
End of Action: 27/03/2017	CSO approval date: 21/11/2012

Objectives

In the current comparative research concerning public sector modernization, the local level of government is blatantly absent. Databases on local public sector reforms are fragmented, incomparable, incoherent, nationally scattered and confined in their methodological approach. This Action is intended to remedy those deficits. It will generate coherent data bases for systematic comparison with a view to streamlining analytical approaches and synthesizing research outcomes using methodological triangulation (qualitative/quantitative techniques). The Action will provide a platform for establishing a new set of comparative (descriptive, explanatory, and evaluative) knowledge on local public sector reforms and for integrating the fragmented research activities in this neglected area of investigation. It aims to enhance the scope of the conceptual foundations as well as the methodological rigour of comparative public administration. The Action will prepare the basis for a systematic evaluation of local public sector reforms within a European scale of comparison. Action activities will yield policy relevant knowledge concerning local reform measures from a European perspective, which can then be utilized to improve policy making for future public sector modernization.
