Programming Languages: R, Stata, Python

Languages: English, Spanish, German

Technologies & Tools: LaTeX, Microsoft Office

Work Experience

World Bank Group - Remote   Aug 2023 - Jun 2024

Short-Term Consultant

- Analyzed the current state of energy vulnerability amid the conflict in Ukraine for Bulgaria, Croatia, Poland and Romania using Stata and R.
- Results were presented in different formats suitable for both technical and non-technical audiences.

World Bank Group - Remote   Mar 2022 - May 2023

Short-Term Consultant

- Combined data from telephone-assisted surveys and national household surveys from Chile, Colombia, Ecuador, and Peru, to consolidate a data base about Venezuelan migration in South America.
- Conducted a comprehensive analysis of the conditions and effects of Venezuelan migration and published a report titled "Venezuelans in Chile, Colombia, Ecuador, and Peru: A Development Opportunity."
- Wrote a detailed code-book for technical and non-technical users with all variables used in the report and a guide of how to reproduce all the results shown in the report.

Institute of Labor Economics - Bonn   Dec 2017 - Jul 2018

Economic Consultant

- Used IV-methods to estimate the effect of fertility on female labour force participation in Egypt. Contact with the Growth and Labour Markets in Low-Income Countries Programme (GLM-LIC).

Central Bank of Colombia - Bogota, Colombia   Jul 2014 - Jun 2015

Research Assistant

- Contributed to research agenda on the effects of maternity leave policies on gender equality in the labor market, impact evaluation of financial education programs, and political coercion in media.
