

Master of Geosciences – Prüfungsversion ab WiSe 2025/26

4 Semester / 120 CP = 48 CP Mandatory + 24 CP Core + 24 CP Specialisation + 24 CP Elective Modules

Advised combinations of modules for a specialisation:

 Mandatory (MM): 48 CP Core (MC): 24 CP Specialisation (MF): 24 CP Elective (ME): 24 CP

	Modules (Shortcode / Creditpoints)	Geosciences / Geology		Geosciences / Geophysics		Geosciences / Mineralogy and Petrology		Geosciences without a major	
		WiSe	SuSe	WiSe	SuSe	WiSe	SuSe	WiSe	SuSe
	Topics in Earth System Science (GEW-MM01 / 6 CP)	X		X		X		X	
	Project Practical or Research Internship (GEW-MM02 / 12 CP)	X		X		X		X	
Choose 24 CP	Sedimentary Earth System Record (GEW-MC01 / 6 CP)	X						X	
	Tectonics and Geodynamics (GEW-MC02 / 6 CP)	X						X	
	Data Analysis and Statistics (GEW-MC03 / 6 CP)	X						X	
	Field Practical (GEW-MC04 / 6 CP)		X						X
	Theoretical Geophysics (GEW-MC05 / 6 CP)			X				X	
	Geophysical Inversion and Data Analysis (GEW-MC06 / 12 CP = 2*6 CP (two Semester))			X	X			X	X
	Geophysical Laboratory (GEW-MC07 / 6 CP)			X				X	
	Advanced Mineralogy-Petrology (GEW-MC10 / 6 CP)					X		X	
	Applications of Mineralogy and Petrology (GEW-MC11 / 6 CP)						X		X
	Methods in Mineralogy and Petrology (GEW-MC12 / 6 CP)					X		X	
	Advanced Methods in Mineralogy and Petrology (GEW-MC13 / 6 CP)						X		X
	Earth Surface Processes (GEW-MF010 / 6 CP)	X						X	
Choose 24 CP	Earth Systems through Time (GEW-MF011 / 6 CP)	Alternating*						Alternating*	
	Modern Carbonates (GEW-MF012 / 6 CP)								
	Rates and Dates of Geological Processes (GEW-MF013 / 6 CP)	X						X	
	Geo-Information Systems (GEW-MF014 / 6 CP)	X						X	
	Sedimentary Systems Modelling (GEW-MF015 / 6 CP)	X						X	
	Remote Sensing of the Environment (GEW-RCM01 / 6 CP)	X						X	
	Active Tectonics (GEW-MF017 / 6 CP)		X						X
	Basin Analysis and Natural Resources (GEW-MF018 / 6 CP)		X						X
	Earth Observation and Modelling (GEW-MF019 / 6 CP = only one semester)	X						X	
	Field Exercise (GEW-MF020 / 6 CP = only one semester)	X						X	
	Fundamentals of Digital Seismology (GEW-MF110 / 6 CP)			X				X	
	Array Seismology (GEW-MF111 / 6 CP)				X				X
	Seismic Hazard Analysis (GEW-MF112 / 6 CP)			X				X	
	Seismological Data Science with Application to Volcano Systems (GEW-MF113 / 6 CP)				X				X
	Seismic Methods (GEW-MF114 / 6 CP)			X				X	
	Electrical and Electromagnetic Methods (GEW-MF115 / 6 CP)			X				X	
	Potential Field Methods (GEW-MF116 / 6 CP)				X				X

	Field Course Applied Geophysics (GEW-MF117 / 6 CP)				X				X
	Specialized Petrology (GEW-MF210 / 6 CP)				X			X	
	Age Determination (GEW-MF211 / 6 CP)					X			X
	Physicochemical Mineralogy-Petrology (GEW-MF212 / 6 CP)					X			X
	Hands-On in Mineralogy and Petrology (GEW-MF213 / 6 CP = only one semester)					X		X	
	Current Topics in Mineralogy and Petrology (GEW-MF214 / 6 CP = only one semester)				?	?	?	?	
	Special Topics in Mineralogy and Petrology (GEW-MF215 / 6 CP)					X			X
	Master Project and Thesis (30 LP)		X		X		X		X

 Mandatory (MM): 48 CP  Core (MC): 24 CP  Specialisation (MF): 24 CP  Elective (ME): 24 CP

* (starting with Modern Carbonates in WiSe25/26)

Status October 2025

Examination Office or the Study Coordination Office.

Elective Modules

In total 24 CP needed	Only an orientation, elective modules should be chosen freely according to interest	Geosciences / Geology		Geosciences / Geophysics		Geosciences / Mineralogy and Petrology		Geosciences without a major	
		WiSe	SuSe	WiSe	SuSe	WiSe	SuSe	WiSe	SuSe
Choose 1	Modelling and exploring the Earth System (GEW-ME01 / 6 CP)								
	Modelling Tectonic and Surface Processes		X						X
	Advanced Subsurface Modelling/Geoenergy		X						X
	Special Topics in Applied Geophysics				X				X
	Advanced Methods in Observational Seismology				X				X
	Terrestrial and Airbone Lidar and Photogrammetry Systems		X		X				X
	Sedimentary Processes (Field Exercise)		X						X
Choose 1	Geosciences Across Scales (GEW-ME02 / 6 CP)								
	Stress Field of the Earth			X				X	
	Organic Geochemistry					X		X	
	Fundamentals of Geothermics of the Earth's Crust	X		X				X	
	Radiogenic Isotope Geochemistry and Geochronology					X		X	
	Sedimentary Processes (Field Exercise)		X						X
Choose 1	Past and Present of the Earth System (GEW-ME03 / 6 CP)								
	Permafrost Landscapes	X						X	
	Geofluids & Clay Mineralogy					X		X	
	Modern Carbonates	X						X	
	Ore Forming Processes & Dating of Volcanic Processes						X		X
	Sedimentary Processes (Field Exercise)		X						X
Choose 1	Modern Trends in Geosciences (GEW-ME04 / 6 CP)								
	Introduction to Geomicrobiology (Lecture/Exercises/Practical)		X						X
	Paleoclimate Dynamics		X						X
	Ore Forming Processes & Dating of Volcanic Processes						X		X
	Thematic Field School		X				X		X
	Applied Causal Inference				X				X
Choose 1	Geoscientific Data Science (GEW-ME05 / 6 CP)								
	Remote Sensing of Permafrost Regions	X						X	
	Quantification of flow and transport processes for utilisation of the geological subsurface			X				X	
	Nonlinear Data Analysis Concepts			X				X	
	Advanced Geochemistry					X		X	
	Basic Thermodynamics					X		X	
Choose 1	Special Remote Methods in Geosciences (GEW-ME06 / 6 CP)								
	Planetary Physics				X				X
	Analysis of Digital Elevation Models		X		X				X
	Deep Electromagnetics and Magnetotellurics				X				X
	Earth Surface Deformation and Radar Satellite Interferometry (InSAR)			X				X	
Choose 1	Applied Causal Inference				X				X

	Terrestrial and Airborne Lidar and Photogrammetry Systems		X		X			X
Special Topics in Geosciences (GEW-ME07 / 6 CP)								
Choose 1	Coastal Dynamics	X					X	
	Applied Mineralogy and Cultural Heritage				X		X	
	Biogeochemistry	X					X	
	Visualization and Communication	X		X	X		X	
	Environmental Mineralogy				X		X	
Monitoring Techniques and Data Analysis in Geosciences (GEW-ME08 / 6 CP)								
Choose 1	Planetary Remote Sensing			X			X	
	Earthquake and Volcano Deformation		X				X	
	Micro-analytical Methods and X-ray Powder Diffraction				X		X
