Web Forum "Funding Opportunities for International Cooperation and International Action by the DFG“

The International Cooperation Group of the Deutsche Forschungsgemeinschaft (DFG, German Research Foundation) invites you to the virtual web forum "Funding Opportunities for International Cooperation and International Action by the DFG" on 15 November 2022. The event is aimed at researchers eligible to submit proposals, staff of coordination offices and other interested parties at German universities and research institutes. The language of the lecture is German, the event will be held via the video conferencing tool Webex.

POLONEZ BIS: Call for research stays in Poland

The National Science Centre (NCN) launched the POLONEZ BIS 3 call for 24-month research projects carried out by incoming researchers. The Programm is co-funded by the European Commission and NCN under the Marie Skłodowska-Curie COFUND grant. The purpose of the call is to help researchers develop their professional careers by supporting their international mobility and to fund ambitious research projects at the best Polish research institutions.

The call is addressed to researchers who hold a PhD degree or have at least 4 years of full-time equivalent research experience and who have not lived, studied or been employed in Poland for an uninterrupted period of over 12 months within 3 years prior to the call launch.

Moodle course for new students and writing consulting

The winter semester has started and many students are struggling with the study start, especially international students. In order to provide answers to many of their questions, a moodle course for new students was created and it is now available in English! Please share this information with your students and also remind them that the faculty has a writing consulting service in German and English.

Moodle course: https://moodle2.uni-potsdam.de/course/view.php?id=34102
Writing consulting: https://www.uni-potsdam.de/de/humfak/studium-lehre/ihre-ansprechpersonen-ueberblick/tutoren

International Cooperation: Standing Open Proposal Submission Opportunities in the Individual Grants Programme

The DFG funding scheme open to Weave is the Individual Research Grants Programme (“Sachbeihilfe”). Within Weave researchers from two up to three European countries or regions are able to submit a collaborative research proposal. Weave is based on the Lead Agency Procedure principle. Proposals with the DFG as the Lead Agency can be submitted at any time. Please note that other funders within Weave may have specific rules and may have deadlines. Therefore, please refer to both the DFG’s website and the other organisations’ websites for detailed information on eligibility requirements, proposal preparation, submission procedures etc.
