

University of Potsdam

Plant Ecology and Nature Conservation

Institute for Biochemistry and Biology
Am Mühlenberg 3, 14476 Potsdam-Golm

Group seminar winter semester 2021-22

Mondays, 14:15 – 15:45 on Zoom

Date	Speaker	Affiliation	Preliminary Title or Topic	Comment
25/10/2021	Dr. Fernando Maestre	University Madrid	tba	Joint seminar with AG Linstädter
01/11/2021	Patricia Calderón	Leibniz-Institut für Zoo- und Wildtierforschung (IZW)	Occupancy models reveal lack of critical connectivity and potential of conservation prioritization for Central American jaguars	
11/8/2021	Dr. Christian Voigt	Leibniz-Institut für Zoo- und Wildtierforschung (IZW)	Bat responses to wind turbines in energy-agroecosystems	
15/11/2021	Dr. Vincent Careau	University of Ottawa	Energetics, behaviour and performance: trait (co)variance across levels	
22/11/2021	Dr. Mark Urban	University of Connecticut	Eco evo interactions in a food web	Joint seminar with AG Gaedke
29/11/2021	Dr. Kristin Scharnweber	University of Potsdam	Post-mining effects on fish communities and food web dynamics	
06/12/2021	Maxi Tomowski	University of Potsdam	Dispersal in Time- Uncovering 'pseudo' colonization and 'pseudo' extinction in a wetland-(meta)population	
13/12/2021	Dr. Florian Hartig	University of Regensburg	P-value dos and dont's	
20/12/2021	Christmas holidays			
27/12/2021				
03/01/2022	Janice Pahl	University of Potsdam	Energy budgets of European Hares	
	Yvonne Rychlak		From dusk til dawn? Space use and population development of the European otter in the Nature park Dahme-Heidesee and Sielmanns Naturlandschaft Gross Schauen	
10/01/2022	Tim Herkenrath	University of Potsdam	Impact of Herbivory on Water Relations in Southern African Woody Species	
17/01/2022	Dr. Nina Farwig	Philipps-Universität Marburg	Biodiversity and Ecosystem Functionality in Changing Landscapes	
24/01/2022	William Hawkes	University of Exeter	The most remarkable migrants of all	
31/01/2022	Siyu Huang	Leibniz Centre for Agricultural Landscape Research (ZALF)	The temporal dimension in landscape genetics of fragmented temperate forest herb populations	
	Jannis Till Feigs		The role of pollinators for the gene flow of fragmented forest herb populations in changing agricultural landscapes	
07/02/2022	Florian Kestel	Leibniz Centre for Agricultural Landscape Research (ZALF)	Land susceptibility to wind erosion in Southern Africa – A modelling approach	
	tba	tba	tba	
14/02/2022	Alice Cimenti	University of Potsdam	Namibian farmers' perception of the environment explained through policies and local knowledge	
	Roi Hendler		tba
