

## Nomination Form for the Application for the DAAD Prize

### DAAD Prize for outstanding achievements of international students at German universities

The DAAD Prize has been awarded for over ten years now and comes with a prize money of €1,000 per university. The aim is to give faces to the many international students at German universities and link them with their stories. This illustrates that each international student takes a piece of Germany back to their homeland when they return and leaves a part of themselves in Germany – thus enriching both sides. The “DAAD ALUMNI Community” also serves as an international network for the recipients of the prize. Those supported by the DAAD generally stay in touch with their universities, and they often return for their doctorate or as researchers.
