

Call for Proposals: Teaching & Training

Funding to Expand and Cultivate the International Partnerships of the University of Potsdam with a Focus on Teaching Visits and Further Training and Continuing Education for Technical and Administrative Personnel

Dear Sir or Madam,

Dear colleagues,

Complementing the “KoUP” Cooperation Funding call for proposals and offering different focus areas each year, the university’s “Teaching & Training” program also provides funding for the implementation of activities with Potsdam’s partner universities. The activities funded by “Teaching & Training” focus on teaching and continuing education and serve to cultivate cooperation projects and partnerships of the University of Potsdam outside Europe and beyond research cooperation. The financial resources come from the university budget and third-party funding, which are partly subject to funding regulations.

The following activities are eligible for funding:

Program Line 1: Teaching visits of at least 5 days and eight hours per week.¹ The teaching visits are to complement the range of courses offered at the host institution and to provide an international component. Using your visit to develop further cooperation activities is expressly welcome.

Program Line 2: Activities in further training and continuing education for technical and administrative personnel, e.g. to exchange experiences with partners, for job shadowing or further training. Priority will be given to applications directly related to the implementation of research projects.

Program Line 3: Travel activities to prepare cooperation projects, as long as these projects are not eligible for “KoUP” funding.

In 2022, the mentioned activities are meant to intensify cooperation with the following partners:
