THE CITY

VERONA IS EXTRAORDINARY WHEN IT COMES TO HISTORICAL HERITAGE AND GEOGRAPHIC LOCATION, EASY TO REACH FROM DIFFERENT NATIONAL AND INTERNATIONAL DESTINATIONS THANKS TO A TRANSPORT NETWORK THAT MAKES IT STRATEGIC.

Rich in art, monuments and historical buildings, in 2000 Verona was included by UNESCO in the World Heritage List. Our city, a culturally dynamic, highly liveable and welcoming one, is located in a strategic position near Lake Garda and the Lessinia mountains, within easy reach of other important artistic cities in Italy such as Venice, Milan, Bologna and Florence.

A LIVEABLE CITY OF 'JUST THE RIGHT SIZE'

Verona is a medium-sized city where you can easily find your way around and get from one place to another on foot. Our university campuses are located in urban areas and are easily reachable by public transport, bike sharing and car pooling systems. Getting to and from Verona is easy thanks to the city's motorway and railway connections, and an international airport.

THE UNIVERSITY

The University of Verona is a young and dynamic university, deeply connected to the beautiful city of Verona and its surrounding area. With a focus on innovation, we benefit from a rich network of national and international academic partnerships. Students who choose our University become part of a community which strives for excellence in all its different areas: from research to teaching, from facilities to services. The University has 12 departments in four macro-discipline areas: Law and Economics, Arts and Humanities, Life and Health Sciences, and Natural Sciences and Engineering. Additionally, the University also has a School of Medicine, a School of Science and Engineering, a School of Economics, four PhD Schools and a well-developed system of postgraduate programmes with a focus on the needs of the job market.

WHY VERONA?

The University of Verona is located in an area where living standards are among the highest in Italy. Thanks to an agreement with ESU of Verona, the University is able to provide its students with accommodation and canteen services for a competitive price, as well as with study halls and libraries open 7 days a week, until midnight. Moreover, our graduates are more likely to be employed than the average graduate: according to Alma-laurea surveys, 85% of our Master's degree graduates has found employment within a year after graduation, which is a far higher percentage than the regional and national average (AlmaLaurea 2018). In addition, the University's international outlook is steadily growing: indeed, our University boasts more than 300 International agreements with universities and research institutes all over the world, enabling students to enter the global job market by providing them with intercultural skills and a cosmopolitan perspective. Opportunities for international student mobility are in place, not only for those who wish to study abroad: over the last year the number of students taking part in international traineeship mobility programmes has tripled thanks to Erasmus+ for traineeship funding.

MUSIC, ENTERTAINMENT AND CULTURAL EVENTS NOT TO BE MISSED

There's always something new to discover in Verona's museums, cinemas and theatres. Student discounts are often available. From exhibitions, concerts, festivals and fairs to opera and other shows, with frequent collaborations between the University and the Municipality of Verona - there's something for everyone, whatever your tastes. To study or conduct research in Verona also means to benefit from a very cultural context, rich in events!

UNIVR / THE ITALIAN UNIVERSITY SYSTEM

'OPEN ACCESS' DEGREE PROGRAMMES

these programmes are 'open', which means that you will be allowed to apply without having to sit an admission exam. However, once you have registered, you will need to take a test in order to demonstrate that you have sufficient knowledge of the subjects included in the programme (see 'Saperi minimi' – *Entry requirements*).

LIMITED ACCESS DEGREE PROGRAMMES

(ADMISSION TEST REQUIRED AT LOCAL LEVEL) in order to apply for these programmes you will need to sit an admission test (either paper-based or online TOLC test), and the number of available places is limited.

LIMITED ACCESS DEGREE PROGRAMMES

(ADMISSION TEST REQUIRED AT NATIONAL LEVEL) in order to apply for these programmes you will need to sit an admission test at national level, and the number of available places is limited.

DEGREE PROGRAMMES

Bachelor's degrees, Master's degrees, Single cycle/Combined Bachelor+Master's degrees, Postgraduate Specialisation and PhD programmes, pursuant to Art. 1 of Ministerial Decree no. 270 of 22 October 2004.

THE ITALIAN UNIVERSITY SYSTEM INCLUDES THE FOLLOWING ACADEMIC QUALIFICATIONS:

FIRST CYCLE DEGREE PROGRAMMES (*LAUREA TRIENNALE* - BACHELOR'S DEGREE), **SECOND CYCLE DEGREE PROGRAMMES** (*LAUREA MAGISTRALE* - MASTER'S DEGREE; *MASTER DI PRIMO LIVELLO* – 1ST LEVEL PROFESSIONAL MASTER PROGRAMMES; *LAUREA A CICLO UNICO* - SINGLE CYCLE/ COMBINED BACHELOR+MASTER'S DEGREE PROGRAMMES), AND **THIRD CYCLE DEGREE PROGRAMMES** (PHD; POSTGRADUATE SPECIALISATION PROGRAMMES; *MASTER DI SECONDO LIVELLO* – 2ND LEVEL PROFESSIONAL MASTER PROGRAMMES).

DEGREE CLASSES

Bachelor's and Master's degrees that share the same educational objectives and require the same educational activities to achieve them are grouped into classes. Classes are identified through alphanumeric code. For example: L-1 *Cultural Heritage*; LM-19 *Publishing and Journalism*; L/ SNT2 *Rehabilitation Science in Healthcare Professions*; LM-46 *Dentistry and Dental Prosthetics*. Degree classes are useful when checking entry requirements in order to apply for a Master's degree, or a job in a public institution.

CFU CREDITS (ECTS)

CFU stands for *Credito Formativo Universitario*, the **standard unit** used to define the learning outcomes and associated workload of learning and study activities required to earn a degree. As a general rule, 1 CFU equates to 25 hours of work including lectures, seminars, lab activities, internships and study. The expected workload per year is 60 CFU; this means that students will need **180 CFU to complete their Bachelor's degree** (*Laurea triennale*), 120 CFU for the Master's degree (*Laurea Magistrale*), and 300 or 360 CFU for the Single cycle/Combined Bachelor+Master's degree (*Laurea magistrale a ciclo unico*) depending on the type of degree (5 or 6 years).

FOR EACH EXAM PASSED STUDENTS ARE AWARDED A FIXED NUMBER OF CFU - DEFINED ON THE BASIS OF THE WORKLOAD REQUIRED - AND A MARK ON A 30-POINT SCALE (MINIMUM MARK: 18/30).

DOUBLE/JOINT DEGREE PROGRAMMES

Based on an agreement established between the University of Verona and a foreign partner university, upon completion of these programmes you will receive two degrees, i.e. the Italian degree and the degree of the foreign partner university.

PHD PROGRAMMES

The third cycle of education within the Italian university system includes the *Dottorato di ricerca*, corresponding to the PhD level as recognised at international level. These programmes have a duration of 3 or 4 years, by the end of which a PhD qualification (*Dottore di ricerca*) is awarded.

ECDL

The *European Computer Driving Licence* is a document which certifies that the person is able to use a computer and manage files, texts, electronic sheets, as well as preparing presentations and using databases, internet and e-mail providers. The University of Verona enables its students and external users to take ECDL certification tests, without having to attend specific training courses.

LAUREA, OR LAUREA DI PRIMO CICLO BACHELOR'S DEGREE

Has a duration of 3 years and is aimed at providing students with skills and scientific knowledge and methods necessary to enter the job market. A Bachelor's degree includes 180 CFU and graduates are awarded the title of *dottore*. In order to enrol you must have a high school/secondary school diploma, or equivalent. For some programmes you will be asked to sit an admission test.

LAUREA MAGISTRALE MASTER'S DEGREE

Also known as Second cycle degree, has a duration of 2 years and it is aimed to provide students with an advanced preparation for carrying out activities requiring a high level of specialisation in specific areas. A Master's degree includes 120 CFU and graduates are awarded the title of *dottore magistrale*. In order to enrol you must have a Bachelor's degree or other suitable foreign qualifications. Specific entry requirements and admission tests for each programme are set out by the University.

LAUREA A CICLO UNICO SINGLE CYCLE/COMBINED BACHELOR+MASTER'S DEGREE

For these degrees the 3+2 year scheme (a three-year Bachelor's and a two-year Master's as two separate qualifications) does not apply. Instead, a single programme of 5 to 6 years is offered. At the University of Verona the following Single cycle degree programmes are available: *Medicine and Surgery*, and *Dentistry and Dental Prosthetics* (both 6 years - 360 CFU), *Law*, and *Primary teacher education* (both 5 years - 300 CFU). Upon completion of the programme graduates are awarded the Master's degree and the title of *dottore magistrale*.

MASTER DI PRIMO LIVELLO 1ST LEVEL PROFESSIONAL MASTER PROGRAMME

These are advanced courses aimed at providing students with specific theoretical and practical skills in a specific academic or professional field. These programmes have a minimum duration of a year, and 60 CFU are awarded upon completion. Students who already hold a Bachelor's degree may apply.

MASTER DI SECONDO LIVELLO 2ND LEVEL PROFESSIONAL MASTER PROGRAMME

Students who already hold a Master's degree or a Single cycle/Combined Bachelor+Master's degree may apply. These programmes feature advanced technical contents.

ADMISSION TEST

It is a mandatory test for admission to limited access degree programmes. Tests enable the University to assess each applicant's skills, and consider whether they meet the requirements set for each degree programme.

SCUOLA DI SPECIALIZZAZIONE PER LE PROFESSIONI LEGALI SCHOOL FOR LEGAL PROFESSIONS

A two-year legal postgraduate specialisation programme, divided into a common first year and a second year with two different *curricula*: judicial-forensic and notarial. During each year of the programme, students are required to complete an internship at a place designated by the programme.

SCUOLE DI SPECIALIZZAZIONE DELL'AREA MEDICA MEDICAL SCHOOLS

Advanced postgraduate specialisation programmes designed to train specialist doctors. The University of Verona offers more than 40 Medical Schools.

DEPARTMENT

the University's organisational unit fundamental for the achievement of the institutional aims with regard to research and teaching, as well as for other relevant activities that may be also carried out with the aid of external entities. Each department brings together all professors and researchers who belong to specific SSDs (*Scientific-Disciplinary Sectors*) or subjects. Departments are granted scientific, teaching, administrative, organisational and financial autonomy, in the forms and within the limits established by the Statute and the *University Regulations for Administration, Finance and Accounting*.

SCHOOL

it is established upon proposal of more than one Department, when it is necessary to appoint professors from different departments in order to coordinate, streamline and manage several courses of study, also of different classes as long as these are similar from a scientific and cultural point of view.

TEACHING COUNCIL

collegial body that organises the teaching activities of one or more degree programmes, also of different classes as long as these are similar from a scientific and cultural point of view.

PROGRAMME SUPERVISOR

a professor, appointed by the Teaching Council responsible for a specific degree programme, who coordinates the quality assurance procedures of the relevant teaching activities.

FACULTY-STUDENT JOINT COMMITTEE

a permanent committee with advisory, monitoring and supervisory functions relating to the teaching activities coordinated by each department, or school (if any).

TEACHING AND STUDENT SERVICES UNIT

a point of reference for students, for information on the organisation of teaching at the University.

SUA-CDS (DEGREE PROGRAMME ANNUAL FACTSHEET)

Contains useful data on each degree programme and can be used to design, implement, and reorganise each degree programme, as well as for self-evaluation purposes.

Specifically, the SUA-CDS includes the following sections:

1. The *Quality* section, which includes information on how to:
 - identify the demand for training activities;
 - outline the educational offer;
 - certify the learning results;
 - clearly define roles and responsibilities concerning the management of the University Quality Assurance system;
 - periodically review the structure of the degree programme and its effects in order to make the necessary changes.
2. The *Administration* section.

The SUA-CdS annual factsheets are published in the ministerial portal *Universitàly* and can be found by searching any degree programme within the portal itself.

SSD (SCIENTIFIC-DISCIPLINARY SECTORS)

Each subject or module within any degree programme is labelled with a code composed of a number of letters and numbers (e.g. MAT/08, L-LIN/01, L-ART/07, etc.). This acronym identifies the Scientific Disciplinary Sector (SSD): as a result, modules under the same SSD share the same subject and teaching contents.

MODULE PAGE

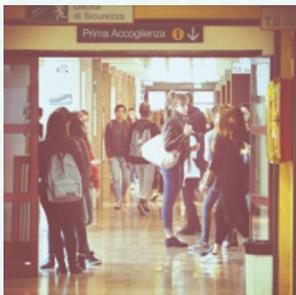

The web page of a module, which includes the name of the professor, lesson timetables, educational objectives, topics, suggested bibliography, assessment methods and the views of the students who have attended classes for that module the previous years.

ALTERNANZA SCUOLA-LAVORO HANDS-ON WORK EXPERIENCE FOR HIGH SCHOOL STUDENTS

An innovative teaching method designed to help high school students to consolidate their knowledge and have a real hands-on work experience. In order to enrich the students' training experience, and to better orient their studies, the University encourages them to develop specific training pathways at the University's departments and facilities, in collaboration with their schools.

'ZERO' COURSES

Courses held by university lecturers, for those who wish to prepare for the *Admission test preparation courses* (see below). Specifically, 'Zero' courses are aimed at helping applicants to fill any gaps they may have in their preparation before undertaking the preparation course. Places are limited and those who intend to take part will need to register and pay a participation fee.

ADMISSION TEST PREPARATION COURSES

Courses aimed at preparing applicants to successfully apply for the admission tests for limited access degree programmes. These courses take place in summer and last about a week. Places are limited and those who intend to take part will need to register and pay a participation fee.

UNIVERSITY ORIENTATION COUNSELLING

Free listening service, support and orientation counselling for high school students who are choosing a degree programme and for all those who intend to start, resume or rethink their university choice. The service also provides an opportunity of interaction to support students in making their choice, to make them think about their personal interests, motivation to study and professional goals. The service is provided through one or more individual interviews conducted by experts.

OPEN LESSONS

An initiative designed to help students to choose their study path more consciously. High school students in their last and second to last year (i.e. fourth and fifth year) can register individually to attend a lecture at the University, sharing the classroom with university students. Participation is free, places are limited and registration is required.

STUDENT ORIENTATION EVENTS

Free orientation activities taking place in schools or at the University, for high school students in their last and second to last year in school (i.e. fourth and fifth year). These events are intended to promote knowledge of the university system and the University's educational offer and services, as well as providing support to students in choosing their degree programme. Orientation events also include a specific information desk on the various areas of study for individual students, run by university tutors.

ENROLMENT HELPLINE

+39 045 802 80 00

Active in summer, it provides information and clarifications on the procedures for enrolment and registration for the admission tests.

FAMILY OPEN DAY

Events for families, with the aim of providing information about our University, the educational offer and services. Such event is also an opportunity to reflect together on how to support our prospective students in choosing the right academic pathway. Participation is free.

OPEN WEEK

Special informative weeks on the educational offer of the University of Verona, during which students can take part in the presentations of the various degree programmes, ask questions directly to lecturers and visit the University's facilities.

ORIENTATION FAIRS

In addition to the Job&Orienta event that takes place in the city, the University of Verona is active in a number of student orientation fairs in Italy, specifically for high school students in their last three years of study. The fairs take place in the following regions: Lazio, Calabria, Sardinia, Sicily, Lombardy, Puglia and Trentino Alto Adige.

TANDEM PROJECT

An initiative that offers high school students in their third, fourth and fifth year of study the opportunity to attend free courses held by university lecturers at the University.

It allows them not only to experience significant moments of university life, but also to challenge themselves in a different context that will help them to understand the methodologies and fundamental aspects of a specific discipline, so that they can undertake academic studies with an adequate cultural background, in line with the entry requirements set out for each programme, to find the right study method and to make informed choices.

TANDEM.UNIVR.IT

ADMISSION TEST SIMULATIONS

An opportunity not only to test your own preparation, but also and above all, to familiarise yourself with the administrative procedures that students have to carry out during the real admission test. Participation is free, places are limited and registration is required.

STUDENT WELCOME SERVICE

The purpose of this service is to welcome and support those who are approaching the world of university for the first time and newcomers; the activities take place from July to September in the cloister of Via San Francesco, 22, where information desks run by graduate tutors are set up with the aim of providing information on degree programmes, deadlines and enrolment procedures.

GUIDED TOURS

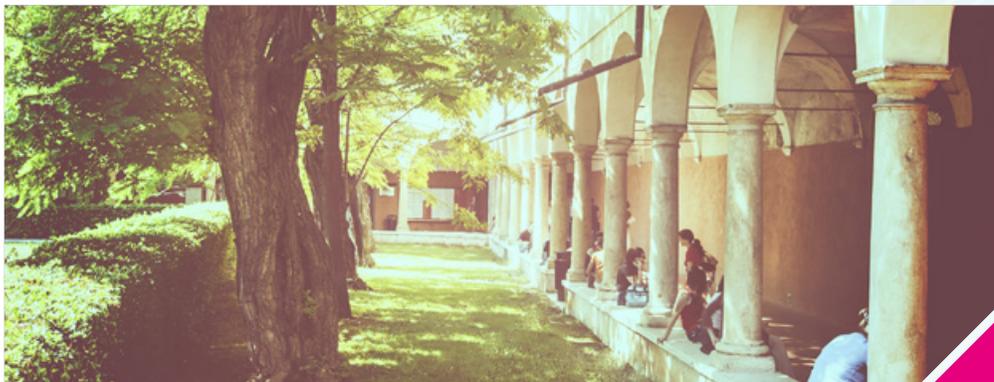

Organised in summer, these tours aim to provide an overview of the facilities of the University, in particular the location of the most useful offices for students (student services offices, Scholarships office, libraries, canteens).

ONLINE SUPPORT AND INFORMATION DESK

From Monday to Friday, from 9 am to 1 pm, senior students are available to prospective students for information on programmes, services and specific initiatives for first-year students. There is also a dedicated e-mail address

SERVIZIO.ORIENTAMENTO@ATENEUNIVR.IT
and a Facebook page
FACEBOOK.COM/ORIENTAMENTOUNIVR

BANDO DI AMMISSIONE CALL FOR APPLICATIONS

Official document which contains the information necessary and useful to enrol in a degree programme, particularly focusing on the admission test: number of places available, characteristics of the test, submission of the application for admission, evaluation methods, procedures and deadlines for the establishment of the final ranking. Call for applications are to be found in a specific section on each degree programme's web page.

TOLC TEST

Individual online test, different for each participant, consisting of questions automatically and randomly selected from the database "Consorzio Interuniversitario Sistemi Integrati per l'Accesso" (*Inter-University Consortium Integrated Systems for Access*). The TOLC test is computer-based and carried out in the facilities determined by the universities that adopt the TOLC system, and enables you to take part in any selection for which that type of TOLC is required. Therefore, it is not necessary to take a TOLC test in Verona in order to apply for a degree programme based at the University of Verona.

'SAPERI MINIMI' AND OFA CREDITS (OBBLIGHI FORMATIVI AGGIUNTIVI)

The personal preparation required to enrol in a specific degree programme. Such preparation may be assessed at the time of the admission tests (for limited access degree programmes) or separately, through individual tests to be taken during the first year. Failing the Saperi minimi test will not prevent you from registering at the University. However, you will be soon informed by the University about the number of credits (OFA credits, *Obblighi Formativi Aggiuntivi*) that you will need to regain by passing the test by the end of the first year, or you will not be allowed to enrol in the second year. In order to help students preparing for the assessment, specific courses for each programme are held during the year.

ENTRY REQUIREMENTS

Qualifications and minimum knowledge and skills required for the student to enrol in a degree programme. Entry requirements to be met in order to enrol in a Master's degree programme include the level and type of qualification and the skills and knowledge required. In some cases, applicants will also need to have a minimum Bachelor's degree grade.

CORSO / **LIMITED ACCESS DEGREE PROGRAMMES**
(ADMISSION TEST REQUIRED AT LOCAL LEVEL)

1. **Register** on the **ESSE3** platform.
2. **Register for the admission test** on the **ESSE3** platform.
3. Print from the **ESSE3** platform the **MAV payment form** and pay the fee as indicated on the form.
4. **Take** and pass the admission test/s.
5. **Check the ranking list.** If successful, go to the **ESSE3** platform and enrol in the programme by the date stated in the notice issued at the time of the publication of the ranking list.
7. Print the **MAV payment form** for tuition fees from the **ESSE3** platform and pay the first instalment *(by the deadlines outlined in the call for applications)*.
8. Wait for the **confirmation** email from the Enrolment Office.

CORSO / **PROGRAMMES REQUIRING TOLC TESTS (E-B-S-I)**

1. **Register** on the **CISIA** website.
2. **Register** for the TOLC test on the **CISIA** website *(you will be required to pay a contribution of €30)*. Please remember to keep the receipt which includes the details of the TOLC test *(venue and time)*.
3. **Take** and pass the TOLC test *(in Verona, or in any other CISIA centre)*.
4. **Register** on the **ESSE3** platform.
5. **Register** for the admission test on the **ESSE3** platform.
6. **Check the ranking list.** If successful, go to the **ESSE3** platform and enrol in the programme by the date stated in the notice issued at the time of the publication of the ranking list.
7. Print the **MAV payment form** for tuition fees from the **ESSE3** platform and pay the first instalment *(by the deadlines outlined in the call for applications)*.
8. Wait for the **confirmation** email from the Enrolment Office.

CORSO / **LIMITED ACCESS DEGREE PROGRAMMES: MEDICINE AND SURGERY, DENTISTRY AND DENTAL PROSTHETICS**
(ADMISSION TEST REQUIRED AT NATIONAL LEVEL)

1. **Register** on **Universitaly** and select the Universities you'd like to apply for.
2. If the University of Verona is your first choice: **register** on **ESSE3**.
3. **Register** for the admission test on **ESSE3**.
4. Print from the **ESSE3** platform the **MAV payment form** and pay the fee as indicated on the form.
5. **Take** and pass the admission test/s.
6. **Check** the ranking list on **Universitaly**. If successful, register for your programme on **ESSE3** by the deadline outlined in the notice issued at the time of the publication of the ranking list.
7. Print the **MAV payment form** for tuition fees from the **ESSE3** platform and pay the first instalment *(by the deadlines outlined in the call for applications)*.
8. Wait for the **confirmation** email from the Enrolment Office.

CORSO / **MASTER'S DEGREES (OPEN ACCESS)**

All those who wish to enrol in a Master's degree (open access) should register for a test aimed at ensuring that they meet the relevant entry requirements, on the **ESSE3** platform for student's career. Please follow the steps below:

1. **Register** on **ESSE3**.
2. **Register** for the test *(entry requirements)* for Master's degrees on **ESSE3** and attach all required documents.

Please note: as soon as your request will be processed by the relevant Teaching and Student Services Unit, the status of your request will change to "**in valutazione**" (under assessment). In case you'll need to take an admission test or interview, the status of your request will change to "**prova da effettuare**" (test yet to be taken). Once it has been ensured that you meet the relevant entry requirements and all admission tests (if any) have been taken and passed, your request status will change again to "**esonerato**" (exempt) and you shall proceed with the registration, by the deadlines included in the University's website.

3. When your request status will change to "**esonerato**" (exempt), print out from **ESSE3** the **MAV payment form** and pay the first instalment *(by the deadlines outlined in the call for applications)*.
4. Wait for the **confirmation** email from the Enrolment Office.

UNIVR / SERVICES FOR STUDENTS

ACCOMMODATION, CANTEENS, TRANSPORT AND ESU CARD

423 bed spaces in 8 comfortable facilities, 7 canteens (4 in Verona, 1 in Legnago and 2 in Vicenza), 7 study halls with 180 seats and Wi-Fi connections. It is also possible to request an ESU card in order to benefit from all services and get discounts on public transport.

HEALTH CARE

If you are a non-local student (i.e. Verona is not your main residence) you may wish to choose a local general practitioner temporarily replacing your doctor in your place of residence. The service can be activated for a minimum of three months to a maximum of one year, with the possibility of renewal.

INTENSIVE SUMMER COURSES IN CANAZEI

Specifically for students who need to recover exams, these courses are held in July and August at the Alba campus in Canazei. They last two weeks and are normally held by the same teaching staff of the courses held at the University of Verona. Places are limited and those who intend to take part will need to register and pay a participation fee.

UNIVERSITY LIBRARIES

The University Library System ("Sistema Bibliotecario di Ateneo") comprises the Arturo Frinzi Central Library, the Egidio Meneghetti Central Library and the specialised libraries, whose holdings are available for search on the University Library Catalogue, as well as the *Universe* research portal. Electronic resources on subscription or purchased are available on the *Universe* website, clicking on the database section (banche dati) or in the e-journals and e-books list, arranged in alphabetical order. However, libraries are not only about books: libraries also organise training courses, offer help in the search for books, are the venue of art exhibitions, conferences, seminars, and film shooting, as well as offering study halls, and are open 7/7, also in the evening. To find out more go to:
UNIVR.IT/BIBLIOTECH
or follow the Library's social media (Instagram, Facebook, Twitter, Pinterest, Flickr, Youtube, Whatsapp).

UNIVERSITY LANGUAGE CENTRE

An internal service which provides students the opportunity to take part in free language courses and practicals held by native speakers for all levels of language ability (from A1 to C2). Language courses are offered in the five languages taught in our university programmes: French, English, Russian, Spanish and German, as well as Italian for international students.

SCHOLARSHIPS AND BENEFITS

Financial support to students with limited financial means in order to enable them to continue their studies, up to the highest university levels. The benefits provided include tax and fee reductions based on: family income, type of degree programme attended, number of CFU obtained, “fuori corso” or regular status. Benefits also include: scholarships, financial benefits and services managed by the University and awarded through public competition, which have the aim of contributing to the living costs of students; part-time work scheme for students (paid work in student services office performed by students upon successful admission to the appropriate ranking list); incentives to deserving students based on high-school grade, and for those who graduate on time; awards and donations financed by institutions and individuals (issued by our University, other universities or external bodies).

INCLUSION AND ACCESSIBILITY

Through this service we promote the quality of university life, inclusion and accessibility of students with disabilities and special educational needs (DSA), in order to ensure the right to study and inclusion to all students enrolled, pursuant to laws 104/1992, 17/1999 and 170/2010.

PLACEMENT

Services for students and graduates aimed at facilitating their professional development, including extra-curricular internships in Italy and abroad; job advertisements published by companies interested in hiring young graduates from the University of Verona; meetings with companies, institutions and professionals to promote knowledge of the world of work and its opportunities; job orientation initiatives to encourage students to reflect on their own attitudes and work interests, to focus on their objectives, to define an action plan to achieve such objectives, to develop their employability skills.

INTERNSHIPS AND WORK PLACEMENT

It is possible to undertake an internship in Italy and abroad with specific funding and scholarships to support the costs of mobility. Students can benefit from the University’s network of relations with more than 12,000 companies and approved bodies.

PART-TIME SCHEME

Students who, due to work, family or health reasons, feel that they can devote only part of their time to study, may request a part-time scheme, if applicable for their chosen degree programme. Please note: choosing a part-time scheme will not change the normal duration of the degree programme for pension purposes. Graduation certificates for part-time students will include both the *legal* duration of the programme – i.e. the standard duration of a degree programme – and the agreed duration of the programme, based on the part-time scheme. To sum up, the part-time scheme will only regulate the duration and the amount of tuition fees of the programme; moreover, students who choose a part-time scheme will have the opportunity to earn their degree over a period of time that is twice the normal duration of the programme, without being considered ‘fuori corso’.

UNIVR / STUDY... AND MUCH MORE!

STUDENT ASSOCIATIONS

Student associations governed by a Statute regularly registered at the University. These groups play an important role in encouraging students to get involved in university life, as well as in the activities of the individual departments. Associations are also important for student representation, as well as for the creation of social, cultural, sports and entertainment projects. They are for everyone, and are established and made possible by the students to meet their needs. The University of Verona promotes student associations through special calls for proposals, and supports the activities organised directly by students, providing them with venues and resources.

STUDENT COUNCIL

The representative body of the students of the University, aimed to address the needs of the students from any department of the University. The Student Council has advisory and consultative functions on matters of interest to the students. Specifically, the Student Council shall provide opinions on issues relating to scholarships, student fees, and the development plans of the University, as well as making proposals on the organisation of educational activities and services for students

FUORIAULANETWORK – FAN UNIVERSITY WEB-RADIO

An online radio that enables students to work in a young and smart student radio; thanks to a workshop held all year round you can learn the basics of online radio and propose your own ideas for 'formats' and communication activities. FAN is a channel available to students and the university community, and it's part of RADUNI - the Italian network of university radio operators - and the international group of the World College Radio Day.

INDIVIDUAL MODULES

Students have the opportunity to attend the individual modules included in the various degree programmes as separate course units and to take the relevant exams. It is possible to register for a maximum of three modules per academic year and with a limit of 30 CFU.

SOCIAL MEDIA

You can get in touch with the University of Verona on the main social media: Facebook, Twitter, Youtube, Instagram, LinkedIn, Telegram, Flickr e Spotify.

UNIVRSTORE

The University shop where you can find clothing, merchandising and gadgets made by UniVerona, to be part of the university community both during and after your study or research experience at the University of Verona.

SPORTS

Sports activities for students' well-being. The *UnivrSport* initiatives for students, University staff and citizens are an opportunity for them to practice regular physical activities. The available sports activities, made possible by the Sport Sciences area in collaboration with the CUS Verona and supported by the Equal Opportunities Commission and various local public authorities, have as primary aim the education to health and wellness through sport.

UNIVR / A UNIVERSITY ON THE MOVE

UNIVERSITY AND SPORTS HAVE ALWAYS GONE HAND IN HAND, A SUCCESSFUL COMBINATION THAT REALLY IMPROVES THE OVERALL UNIVERSITY EXPERIENCE.

SPORTS ACTIVITIES

Sports activities for students, University staff members and citizens, promoted with the aim of enabling people to regularly exercise and enhance their well-being.

UNIVRSPORT was established with the aim of relaunching and giving greater emphasis to sport at the University of Verona, intended not only as a high level competitive activity, but also as an engaging and exciting practice. Sports activities are an integral part of the university experience, complementing and enriching the educational activities for students. Moreover, the benefits of physical activity on body and mind are widely recognised: for this reason our University has entered into agreements with a wide range of sports centers in the area, also offering fitness programmes at reduced prices for its students and employees.

SPECIFIC PATHS FOR ATHLETE STUDENTS

The balance between the students' university life and their activities as athletes is fostered and promoted through the *Academic Coach* programme and the *B-WISER* European project.

TRAINING AND RESEARCH

A scientific approach to sports combined with advanced technical and teaching activities and supported by a constant strive for new expressions of physical and motor activities form the basis of the rich programme of initiatives aimed to enhance students' well-being.

SPORT TEAM

Sport is just essential to human well-being. Sports activities, that are important for health when practiced regularly and in a correct way, are also a perfect occasion for teamwork competition, which literally stands for 'work together to achieve a common goal'.

UNIVR / INTERNATIONAL

STUDENTS ENROLLED IN ANY COURSES AT THE UNIVERSITY CAN TAKE PART IN THE INTERNATIONAL EXCHANGE PROGRAMMES LAUNCHED DURING THE YEAR THROUGH SPECIFIC CALLS, INCLUDING:

ERASMUS+ STUDY

Mobility grants for Erasmus+ study (*Student Mobility for studies*).

ERASMUS+ TRAINEESHIP

Erasmus+ student mobility grants for traineeships (SMT - *Study Mobility for traineeships*).

SHORT TERM MOBILITY

Grants for short-term international student mobility for students enrolled in a Master's degree programme or a Combined Bachelor+Master's/Single-cycle degree programme.

UNIVERONA COOPERATION

International extra-European student mobility initiatives in Africa, India, Latin America and Albania.

WORLDWIDE STUDY

International mobility grants in the following countries:

Argentina
Australia
Brazil
Canada
China
Colombia
South Korea
Japan
Mexico
Russia
USA
Taiwan

145

DEGREE PROGRAMMES AND ADVANCED COURSES (A.Y. 2018/2019)

ADVANCED TRAINING COURSES

Advanced training courses aimed at enabling participants to meet the requirements set by professional bodies, trade associations, public bodies, private companies and health authorities, such as the advanced course to become Chartered Accountants and Legal Auditors.

PROFESSIONAL DEVELOPMENT COURSES

Training courses for people already working, aimed at updating and developing their professional skills. In order to enrol, applicants need to hold a secondary school diploma, or other suitable foreign qualification. For example: 'Negotiation to mediate' (compulsory professional development course for civil and commercial mediators pursuant to Legislative Decree no. 28/2010 and Ministerial Decree no. 180/2010).

TRAINING COURSES FOR TEACHERS AND PROSPECTIVE TEACHERS

The University of Verona is an institution recognised by the Ministry of Education, Universities and Research for the provision of training courses for prospective teachers, and professional development courses for teachers. Those wishing to enrol in these courses may therefore use the 'Carta del docente' bonus for teachers in order to cover the course fee.
