

SciencesPo

FRANCE'S LEADING
UNIVERSITY
**IN THE SOCIAL
SCIENCES**

OPEN TO THE WORLD

Founded in 1872, Sciences Po is France's leading university in the social sciences. For over 140 years, Sciences Po has educated decision-makers in the public and private sectors. Our College offers a three-year undergraduate degree that includes a year abroad at one of 470 partner universities. There are seven graduate schools composed of 30 master's degrees and five PhD programmes.

Sciences Po hosts 42 dual degrees with partner universities, including Columbia University in New York, the London School of Economics and Peking University. We also provide executive education with 14 dedicated executive master's degrees and over 100 customised training programmes.

Sciences Po offers a multidisciplinary, multilingual and outward looking education. In order to provide a comprehensive curriculum, Sciences Po places great emphasis on fundamental academic courses, professional training and extra-curricular activities. Sciences Po also integrates digital teaching methods into its programmes and continues to develop innovative teaching platforms, such as MOOCs.

Following completion of their degree, Sciences Po graduates possess unique profiles which are highly sought by leading recruiters. Nearly 90% of Sciences Po graduates are hired within six months of graduation and 35% start their career abroad.

Our goal is to open minds and develop critical thinking. We seek to provide students with the essential tools that will enable them to make sense of a complex world. We also provide students with a truly international environment. Our student community comprises 13,000 students – half are international, coming from 150 countries.

As a research university, Sciences Po is focused on excellence, and demands the highest standards from faculty and students. Sciences Po also holds a high degree of social responsibility, and continues to play a pioneering role in the promotion of diversity and equal opportunity in higher education. Sciences Po has an array of financial aid for students of all origins and 27% of the student body hold a scholarship.

UNDERGRADUATE STUDIES

The Bachelor of Arts at Sciences Po

A multidisciplinary foundation in the humanities and social sciences

Sciences Po offers a three-year Bachelor of Arts degree with a multidisciplinary foundation in the humanities and social sciences and an emphasis on civic, linguistic, artistic, and digital education.

The Bachelor of Arts pursues three core ambitions:

- › Teaching to understand a complex world.
- › Providing students with methods adapted to respond to diverse challenges.
- › Instilling in students a sense of duty to contribute to their society.

Choice of major and geographical concentration

On all campuses, students choose a multidisciplinary major – Economy & Society, Political Humanities, or Politics & Government. In addition, each campus offers a different regional concentration that anchors students' intellectual objectives: Africa, Asia, Europe, Latin America, Middle East-Mediterranean, and North America.

Focus on the Political Humanities

Sciences Po's undergraduate curriculum emphasises the study of the humanities. Fields such as art history, geography, literature, and philosophy are paramount to cultivating a critical analysis of contemporary political, economic and social questions.

A progressive and international curriculum

Two years in France and one year abroad

Undergraduates spend their first two years on a Sciences Po campus before pursuing their third and final year at one of Sciences Po's 470 partner universities. This international academic experience may be complemented by an internship. The degree culminates with a capstone project.

> **First year: Learning the fundamentals**

On each of the campuses, undergraduate students are introduced to the disciplines and methods taught at Sciences Po – economics, history, humanities, law, political science, and sociology. Certain courses are related to the regional concentrations offered on each campus.

> **Second year: Acquiring intellectual autonomy**

Students choose a major – Economy & Society, Political Humanities, or Politics & Government –, explore a range of multidisciplinary courses, and interact with the research methodologies linked to their chosen major.

> **Third year: Expanding one's academic project**

During their year abroad, undergraduates complete their major at a partner university.

A civic learning programme

All undergraduate students engage in civic coursework and practical experience during each of the three years of the Bachelor's programme. The civic learning programme emphasises autonomy, consensus building, and developing a personal ethic of responsibility.

One degree, countless opportunities

Upon completion of the BA, students are equipped to pursue graduate studies at one of Sciences Po's seven graduate schools or at any of the world's most competitive universities. Common fields of study include communication, economics, finance, international affairs, journalism, law, organisational behaviour, and public affairs.

Some graduates choose to enter the job market directly after their undergraduate education in one of the following sectors:

Audit & consulting ▪ Economics & finance ▪ Entrepreneurship ▪ Human resources & employee relations ▪ International cooperation & development ▪ Law ▪ Marketing & communication ▪ Press, media & publishing ▪ Public administration & politics ▪ Research & think tanks ▪ Corporate strategy & development ▪ Urban affairs.

UNDERGRADUATE STUDIES

Seven Multicultural Campuses in France

1 Le Havre Campus

Europe-Asia Programme

- > Focus on Asia and its relations with Europe and the world
- > Programme taught in English with intensive French language study
- > Foreign language study in Chinese, Korean, Japanese, Hindi and Indonesian
- > Dual Bachelor's degrees with Columbia University, Keio University, National University of Singapore, University of British Columbia, University of California Berkeley, University of Hong Kong, and University of Sydney

2 Paris Campus

General Programme

- > Programme taught in French, with courses in English
- > Dual Bachelor's Degree with University College London
- > Graduate and PhD studies

3 Poitiers Campus

Europe-Latin America Programme

- > Focus on Latin America, Spain and Portugal, and Euro-Latin American relations
- > Programme taught in French, with courses in English, Spanish and Portuguese
- > Foreign language study in English, Spanish, Portuguese and French for foreigners
- > Dual Bachelor's degree with University College London

4 Reims Campus

Europe-North America Programme

- > Focus on North America and its relations with Europe
- > Programme taught in English with intensive French language study
- > Foreign language study in Arabic, Italian, German and Spanish
- > Dual Bachelor's degrees with Columbia University, National University of Singapore, University of British Columbia, University of California Berkeley, University of Hong Kong, and University of Sydney

Europe-Africa Programme

- > Focus on Africa and its relations with Europe
- > Bilingual French-English programme
- > Foreign language study in Arabic, Portuguese and Swahili
- > Dual Bachelor's degrees with Columbia University, University of British Columbia, University of California Berkeley, and University of Hong Kong

5 Nancy Campus

European Programme, Franco-German concentration

- > Focus on the European Union, specifically on the relationship between France and Germany
- > Programme taught in French, with courses in English and German
- > Foreign language study in French, German, English, Spanish, Russian and Swedish
- > Dual Bachelor's degrees with Freie Universität Berlin and University College London

6 Dijon Campus

European Programme, Central and Eastern Europe concentration

- > Focus on the European Union, its enlargements, borders and neighboring states
- > Programme in French, including courses in English and intensive French language study
- > Foreign language study in English, Czech, German, Hungarian, Italian, Polish, Romanian, Russian and Spanish
- > Dual Bachelor's degree with University College London

7 Menton Campus

Middle Eastern and Mediterranean Programme

- > Focus on the Middle East, the Mediterranean and Gulf states
- > Programme taught in English with intensive French language study ; programme taught in French, with courses in English
- > Foreign language study in Arabic, Turkish, Hebrew, Italian and Spanish
- > Dual Bachelor's degrees with Columbia University, National University of Singapore, University of British Columbia, University of California Berkeley, University College London, University of Hong Kong, and University of Sydney

Dual Bachelor's Degrees

Two years at Sciences Po + two years at the partner university

Sciences Po offers dual Bachelor's degrees with nine of the world's leading universities, allowing students to study as fully-integrated members of two distinct academic cultures. Students from all around the world are recruited jointly by both institutions and form close-knit cohorts that are fully-integrated into the larger communities of their two universities.

The first two years of all dual Bachelor's programmes take place on one of Sciences Po's campuses, where participants pursue the undergraduate curriculum and their choice of major. In years 3 and 4 at the partner university, students pursue a major offered by the host institution. Upon successful completion of the two curricula, students graduate with two Bachelor's degrees, offering exceptional access to prestigious graduate studies or to entry into the job market.

Dual degree with Columbia University (New York, USA)

- > Sciences Po campuses: Reims, Menton, Le Havre
- > In New York, students choose from about 70 majors offered at Columbia
- > Programme in English with no prior study of French required

Dual degree with Freie Universität Berlin (Berlin, Germany)

- > Sciences Po campus: Nancy
- > In Berlin, students pursue a major in Political Science
- > Trilingual programme (French, German, English)

Dual degree with Keio University (Tokyo, Japan)

- > Sciences Po campus: Le Havre
- > Students spend a year and a half at Keio, where they study Economics and Japanese language and culture
- > Programme in English, no prior study of Japanese or French required

Dual degree with the National University of Singapore (Singapore)

- > Sciences Po campuses: Reims, Menton, Le Havre
- > In Singapore, students choose from four majors: Economics, History, Political Science, or Sociology
- > Programme in English with no prior study of French required

Dual degree with the University of British Columbia (Vancouver, Canada)

- > Sciences Po campuses: Reims, Menton, Le Havre
- > In Vancouver, students choose from a choice of five majors: Economics, Geography, History, Political Science, Sociology
- > Programme in English with no prior study of French required

Dual degree with the University of California Berkeley (Berkeley, USA)

- > Sciences Po campuses: Reims, Menton, Le Havre
- > At UC Berkeley, students choose from a large array of majors offerings
- > Programme in English with no prior study of French required

Dual degree with University College London (London, England)

- > Sciences Po campuses: Dijon, Menton, Nancy, Paris, Poitiers
- > In London, students choose from one of six majors: Economics, History, International Relations, Law, Philosophy, or Politics
- > Programme available entirely in French or in English. A mixed English/French track available as well

Dual degree with the University of Hong Kong (Hong Kong)

- > Sciences Po campuses: Reims, Menton, Le Havre
- > In Hong Kong, students choose among three areas of study: Business, Social Sciences, or the Arts
- > Programme in English, no prior knowledge of Chinese or French required

Dual degree with the University of Sydney (Sydney, Australia)

- > Sciences Po campuses: Reims, Menton, Le Havre
- > In Sydney, students choose one of two Bachelor tracks: Bachelor of Arts or Bachelor of Economics
- > Programme in English with no prior study of French required

Sciences Po Exchange Programme

11

Each year, Sciences Po welcomes more than 1,500 undergraduate and graduate students from its partner university network. For either one semester or a full year, exchange students take classes in French, English, or in both languages. The exchange programme is an excellent opportunity to discover Sciences Po's internationally-focused and professionally-relevant social science curriculum, distinctive teaching methods, and vibrant student life.

For undergraduate studies, exchange students choose from among Sciences Po's seven campuses: Dijon, Le Havre, Menton, Nancy, Paris, Poitiers, or Reims. Sciences Po offers a large choice of courses within its multidisciplinary programme in the humanities and social sciences. At the graduate and post-graduate levels, all studies take place on the Paris campus. They integrate one of Sciences Po's seven graduate schools, each of which allows the possibility to combine study with professional practice.

Casey Floren, from the University of Texas, undergraduate exchange student on the Reims campus

"Studying at Sciences Po was a fascinating look at multiculturalism since the Reims campus hosts the Europe-North America programme. There were of course several students from both continents as well as from all over the globe, making a veritable melting pot".

Henriette Bagger, from the University of Copenhagen, graduate exchange student at the Paris School of International Affairs

"A few professors really made my experience unforgettable. My year studying international security at Sciences Po led me to apply for a job in the sector."

GRADUATE STUDIES

Rigorous academic study and insight into professional practice

At the graduate level, Sciences Po's seven schools offer one- and two-year Master's programmes and PhD programmes. All graduate programmes are delivered on the Sciences Po campus in Paris.

Sciences Po also hosts dual Master's programmes with international partners. Students enrolled in these dual degree programmes spend one year at Sciences Po in Paris and one year at the partner university.

Two-year Master's programmes

are open to students with a degree from a foreign higher education institution. The curriculum combines academic theory and analysis with practical, applied project work. Each programme has four 12-week semesters. One semester is spent completing an internship abroad or studying at a Sciences Po partner university. Programmes are taught in French or English; some require both languages.

One-year Master's programmes

deliver an intensive curriculum designed for young professionals who want to develop the expertise necessary to accelerate their careers. All the programmes are taught in English.

PhD programmes

offer solid training in research. Students study for their PhD in one of Sciences Po's 11 research centres.

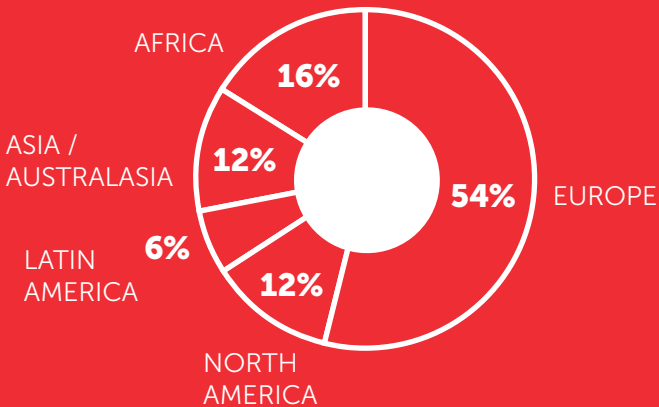

CAREERS

Sciences Po graduates are highly sought by employers in private and public sectors.

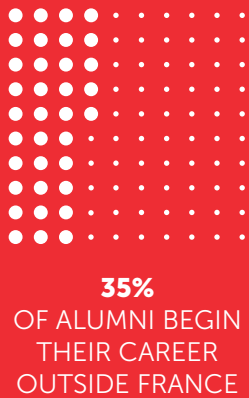

Sciences Po Graduates
in the International Job Market

Common professions for Sciences Po graduates include:

- > Consulting
- > Marketing and Communications
- > Financial Services
- > International Relations and Security

- > Urban Planning Programme

Dual Master's degree in Urban Policy with the London School of Economics* (United Kingdom).

Sciences Po Doctoral School

- > Master's and PhD degrees in Economics*, History, Law, Political Science and Sociology

Dual Master's degrees with École du Louvre (France), Inalco (France), Keio University (Japan)* and Sorbonne University (France).

Dual PhD degrees with Columbia University (USA), International Max Planck Research School (Germany), Northwestern University (USA) and the University of Cologne (Germany).

EXECUTIVE EDUCATION

Sciences Po Executive Education

Understanding the world to make a difference

Sciences Po Executive Education offers custom-made, open-enrolment and degree-awarding programmes for executives in public and private sectors.

Whether it be about reorganising resources, strengthening governance, opening up to competition, developing new products and services, complying with new regulations, or consolidating market position, Sciences Po provides decision-makers with the essential skills for maximising the impact of their strategies and the power of their decisions. Sciences Po aims to empower executives with the right set of knowledge and skills, to improve their capacity to decide in shifting environments.

Each year, 6,000 participants call upon Sciences Po to support their transformation, that of their teams and their organisations.

Expertise

- > Public Management and Public Policy
- > Law
- > Health and Social Protection
- > Energy, Urban and Territorial Policy
- > Leadership and Management
- > Corporate Governance
- > HR and Social Dialogue
- > Digital
- > Communication and Media
- > International Affairs

SUMMER SCHOOL

Two programmes, one unforgettable summer

The Summer School is an opportunity for students from all over the world to discover Sciences Po over the course of the summer. Participants have the opportunity to experience Sciences Po's academic environment and to become a part of its international community. It features two distinct programmes: the University Programme, for university students and graduates, and the Pre-College Programme, for secondary school students.

The University Programme takes place on the Paris campus in two separate, four-week sessions during the months of June and July. Through its intensive academic programme, participants may delve into Sciences Po's core social sciences disciplines, study French language and culture, or mix both subjects.

In 2017, the Pre-College Programme introduced secondary students to student life and academics at Sciences Po during two weeks on its historic Reims campus. Through challenging coursework that combined social sciences and language study, students got a taste of the Sciences Po experience.

Summer School University Programme students enjoying a summer evening on the banks of the Seine in front of the Louvre.

Facts and Figures

40 years of expertise

6,000 participants every year

900 trainers

14 executive master's degrees

100 customised training programmes every year

20 partner universities including

Columbia University, Hertie School of Governance, Institut Supérieur de Management (ISM) de Dakar, King's College London, Lal Bahadur Shastri National Academy of Administration (LBSNAA), London School of Economics (LSE), Tsinghua University and University of Cape Town (UCT).

RESEARCH AT SCIENCES PO

18

Research conducted at Sciences Po focuses on the governance of contemporary societies. The idea is to understand political and economic phenomena and their impact on societies in terms of stratification, diversification and inequalities. The study of society and governance is advanced through five disciplines: law, economics, history, political science and sociology. Research projects cover all the countries of the world, and are often comparative.

Research by the numbers

230 academics

11 research centres

4th in the world for Politics
& International Studies
(QS rankings)

360 PhD students

60 PhDs awarded annually

40% international students
at the Doctoral School

Research-led teaching at the Doctoral School

The Doctoral School offers research-based Master's programmes and PhD programmes in law, economics, history, political science and sociology.

Master's programmes

Research Master's cohorts are limited to 20 or 30 students, which means they benefit from continued individual supervision. Courses are delivered by academics from Sciences Po research centres. The first year is devoted to theory courses, an introduction to research, and to choosing a subject for the research dissertation. The dissertation is a key component of the research Master's programmes and accounts for a quarter of the ECTS credits. Students spend much of the second year, the second semester especially, on preparing and writing their dissertation.

Doctoral training

PhD students at Sciences Po are enrolled in one of the Doctoral School's discipline-specific programmes and also belong to a research centre, of which they are considered full members. During their training, PhD students can participate in international exchange programmes, including two- to three-month research exchanges with Cambridge, Oxford, the London School of Economics and the National University of Singapore. The Doctoral School also offers one-year exchanges with several American universities including UC Berkeley, Columbia University, Harvard and Northwestern.

Dual Master's and dual PhD degrees

Dual Master's degree programmes are offered with Sorbonne University, the École du Louvre and Inalco in France, and Keio University in Japan. Dual PhD programmes are offered with Columbia University and Northwestern University in the United States, and the International Max Planck Research School and the University of Cologne in Germany.

Financial aid

PhD students can benefit from mobility funding, funding for publication costs or doctoral scholarships of €16,400 per year for three years. Sciences Po also offers doctoral contracts for a period of three years. These contracts offer a gross monthly salary of €1,758, for research activities only. Doctoral scholarships and doctoral contracts are awarded on the basis of merit.

Career prospects

Several careers seminars and workshops are organised to help Master's and PhD students achieve their career goals. Graduates of the Sciences Po Doctoral School are recruited every year to research or teaching positions. Doctoral School graduates also take up positions of responsibility in a wide range of organisations: consulting firms, non-profits, public administration, local authorities, NGOs, international organisations, private companies, etc.

STUDENT LIFE

Activities

Students can find a broad array of cultural, sporting and other extra-curricular activities at Sciences Po. More than 200 student associations, ranging from politics to philanthropy, provide opportunities for students to meet and share their passions.

Members of the Bollywood dance club, a student association on the Le Havre campus

Every year, the **Collégiades at Sciences Po** gather students from the seven campuses for sporting and artistic competitions.

Students in the group project Dance on the Nancy campus.

Students in the Sciences Po for Africa association (ASPA) on the Reims campus.

Events

Leading figures from politics, business and academia regularly make presentations or participate in conferences at Sciences Po. Recent visitors have included Eric Schmidt, Executive Chairman of Google, U.S. Gen. David Petraeus, Ban Ki-moon, UN Secretary-General, Condoleezza Rice, former United States Secretary of State, Joseph Stiglitz, American Economist, Nobel Laureate in Economics, Sheryl Sandberg, COO of Facebook, Sundar Pichai, CEO of Google Inc, Mario Draghi, President of the European Central Bank, Irina Bokova, Director-General of UNESCO.

Sundar Pichai, CEO of Google Inc.

Ban Ki-moon, UN Secretary-General.

Sheryl Sandberg, COO of Facebook.

Irina Bokova, Director-General of UNESCO.

Joseph Stiglitz, economist.

ADMISSIONS

22

How to apply?

Undergraduates

International undergraduate admissions – for students who obtained a foreign secondary school diploma or a French baccalaureate abroad – are based on the evaluation of an online application, followed by an interview for short-listed applicants. Interviews take place in more than 70 cities across the world.

Graduates

International graduate admissions – for students who have completed their undergraduate or graduate education outside of France – are based on the evaluation of an online application.

Tuition fees

- > Students whose tax residence is in the European Economic Area pay tuition on a sliding scale, from €0 to €10,250* per year for undergraduate programmes and from €0 to €14,100* for graduate programmes. Tuition is determined by family income and household size.
- > Students whose tax residence is not in the European Economic Area pay €10,250* per year for the undergraduate programme and €14,100* per year for graduate programmes.

*2017-18 Tuition Figures

Financial aid & scholarships

Several financial aid and scholarship programmes are available. Non-European students are eligible for:

- > Sciences Po Boutmy scholarships for both undergraduate and graduate programmes
- > Eiffel scholarships for graduate programmes, funded by the French government
- > US federal loans

Student housing

The housing service at Sciences Po provides assistance to students on all seven campuses. It posts listings for a range of housing options and advises students on renting apartments in France.
