

Join the team

+ Become xounds Junior App Developer or Volunteer

We are looking for like-minded people who have fun joining us in our mission to create the first safe(r) market space for all audio-loving sex-positive people. Like Spotify for inclusive audio erotica.

+ We are

Cornelia (she/her), Gabor (he/him) and Selma (she/her) – friends from different backgrounds joining up our skills to give people a safe(r) platform to share the voice of their own sexuality and revolutionise the freedom of pleasure for everyone – xounds.

While Cornelia is applying her analytical problem-solving and networking skills as CEO, Gabor is adding his creativity and skills to create an accessible UX Design as CPO, and Selma, as CTO, is adding the magic of AI and tech to make xounds a truly safe(r) and secure app for audible pleasure from peers to peers.

We currently have a tested mvp, development plan, diverse partners and a chance to get a paid stipend for 12 months. Are you ready to revolutionise pleasure with us, have great interest and experience in app development?

We value inclusion, diversity, motivation to learn and interest in sex positivity. To develop a product that offers an innovative alternative to the domination of male gaze and stereotypes in erotic content, we want to build a team that mirrors the diversity we hope to celebrate in the app. Become a xounds team member!

+ We are looking for

- both a **paid Junior App Developer position (full-time, student in final year or less than 5 years since graduation)** and **unpaid volunteers** (share as much time as your situation allows).
- You would be reporting directly into the CTO and work in close collaboration with the CPO on developing the next version of the app to launch xounds.
- Since we are at a very early stage and about to found our start-up, you would also get exposure to the CEO and get insights in founding a startup from the ground!
- As we are looking for multiple roles, we condensed all requirements & nice-to-have into one job ad. Therefore, please apply even if you only meet 50% of the requirements! We would love to consider your application. We also accept remote workers for the volunteer positions.

+ In your role you would

- facilitate/assist the development of the frontend app designs using Flutter and Flutterflow
- facilitate/assist the development of the backend app designs using Firebase
- deploy/assist deploying the app to the App and Play Store

+ You are

- comfortable with the concept of sex-positivity, erotic audio and conversations about sex and pleasure
- excited and motivated to learn
- able to work in autonomy with minimal guidance
- a good and honest communicator e.g. reporting progress proactively and raising issues early
- eager to take initiatives and work in an uncertain environment with fast-changing priorities

+ You bring

- completed training on software engineering or app development (Bachelor, Master, or online bootcamp/course)
- knowledge and ability to develop in Flutterflow and Flutter
- Frontend experience (bootcamp/university/volunteer projects count)

+ Nice to have is

- graduation less than 5 years ago
- experience with backend integration, ideally firebase
- experience deploying an app on the App & Play Store
- interest in data topics
- being Berlin based (so we sometimes enjoy app building, food and laughter not only virtually)

+ How to apply?

- Please send an email to team@xounds.de with subject "This is why I want to revolutionise the world of erotica with you!"
- Attach your resume, listing all projects inc. achieved during volunteer/university/bootcamps
- Add your availability (possible start date, number of days available per week)
- Add a short text on why you are interested in the position and company.

xounds good?

If you need more information or have questions, don't hesitate to say "hi" with a few lines about you via team@xounds.de, [LinkedIn](#) or our [instagram: @xounds.good](#).

We are valuing your motivation and will to learn above academic achievements. As we are on a path for growth, we are looking forward to receiving your application even if your profile does not fit our current needs. We might be a good match later. Also, just because we speak about sex-positivity, please don't feel like you have to share anything private. Please come as you are and share whatever you feel is important for the positions and you feel comfortable with. ;-)

For more information, visit www.xounds.de or get in touch.

XOXO Cornelia, Gabor & Selma
