

Wanted! Enthusiastic coding talent of fast-scaling AI start-up!

We are **AIVITEX** 

We bring a new dimension to customer care.

We support companies to create an outstanding customer experience with our **AI/AR-powered video communication platform.**

We are operating in four major industries: Prop tech, insurance, production & facility management

Who are you? We are curious ...

- ✓ You are a highly skilled computer scientist with profound practical knowledge in:
 - Mobile phone technologies - Android/iPhone
 - Web technologies - JavaScript/React
 - Practical skills in AI and AR
 - Architecting user friendly solutions
- ✓ You stand out from the crowd with:
 - Contribution to a project in the context of mobile devices, AI, AR and web technologies
 - Github repository with relevant topics
- ✓ You are a passionate coder with an outstanding getting-things-done attitude
- ✓ You love to build compelling products that really make a difference in daily life
- ✓ You go for the hottest dev shit but know that customer happiness comes first
- ✓ You become a demanding motivator for your team members

What do we offer? - Learn & Grow, Work & Fun

Learn: be part of a fast-scaling start-up with an experienced management team

Grow: move along a clear development path towards CTO

Work: work with most exciting technologies with flexible working conditions

Fun: we are a diverse team and love to have fun not only at work

All set? - Then you should be a part of our team!
