Sportmanagement II

Cornerstones of (Sports) Marketing

Professor Dr. Christoph Rasche  
Chair of Management, Professional Services and Sport Management  
Faculty of Human Sciences  
Faculty of Business Administration and Economics  
University of Potsdam
I. Introduction to Sports Marketing

II. The four domains of Sports Marketing

III. Marketing of sports

IV. Marketing through sports

V. Trends in sports marketing
What is Marketing?

“The process of planning and executing the conception (product), pricing, promotion, and distribution of ideas, goods, and services to create exchanges that satisfy individual and organizational objectives.”
Marketing does the following...

- ... assesses the needs and wants of potential customers
- ... analyses the internal organizational and external market environment
- ... segments the market
- ... positions the product in the market
- ... implements a number of decisions, the „marketing mix“
- ... secures appropriate relationships with the customer
- ... analyses, evaluates and adjusts
- ... explores new market space (blue oceans)
- ... gains and sustains positioning advantages
- ... takes care of the achievements of USPs
Marketing as a philosophy

Marketing has the philosophy to think from the consumers’ end. Their needs are the anchorpoint of marketing activities.

NOT:

The philosophy of sport marketing is to satisfy the needs of sport consumers.
Creating Perceived Value for the Customer

„Sports centres, pools, theatres, art galleries, libraries, museums, gymnasia, are merely, warehouses holding tangible and intangible products that have no value except that brought to them by the customer.“

(Brown 1985)
Sport Marketing

- is the application of marketing concepts to sport products and services
- increasingly converges towards healthcare, fitness and vitality
- incorporates B2B as well as B2C markets
- challenges entrenched wisdoms of sports ethics: sports is business
- sketches out definitions of the relevant sport market
- can be seen as an scientific as well as practical discipline
- includes products, services and problem solution bundles
- increasingly reflects the TIMES logic: telecommunications, information, media, entertainment, and sports
- reflects the customer based problem solutions with respect to sports
- enters the sphere of new media and digital arenas, such as social media
Convergence in Sports Markets

Sports management
- Event management
- Club management
- Equipment management
- Facility management

Healthcare management
- Hospital management
- Integrated care
- Disease management
- Value in healthcare

Leisure management
- Tourism & wellness
- Culture & arts
- Media & entertainment
- E-sports

Hyper-competition in Sports

- Mergers & acquisitions
- Stakeholder power
- Globalization/liberalization
- Business innovations
- Knowledge competition
- Technological progress
- Network economies

**Intra- and inter-industry competition**

- Imitative competition ("ruletaking")
- Inconsistent consumer behavior
- More value for less money (escalating wants)
- Falling transaction costs & information transparency
- Substitutive competition ("rulebreaking")

**Hypercompetition**

- Temporary advantages
- Opportunism
- Tactics & operations
- Competitive escalations
- Real options & dealmaking
- Multiple interactions
- Hit and run entries

**Leadership**

**Management for hyperdynamic constellations**

**Paranoid actions**

**Multitasking**

**Robustness & agility**

**Strategic excellence**

**Operational excellence**

Battlefield of Hypercompetition: Competing on Multiple Dimensions

Core Implication: Create responsive and robust enterprises!

1. Cost and quality
2. Time and know-how
3. Strongholds and barriers
4. Deep pockets
5. Business processes
6. Operative excellence
7. Non-market system
8. Stakeholder relations
9. Strategic Real Options
10. Alliances and networks
11. Global beachheads
12. Strategic excellence
13. Service delivery
14. ?

Competition takes place on many items in parallel!
Being Braced for Hypercompetition: Being Agile, Robust and Responsive

Dynamic competition analysis according to CAST+ approach

1. Description of competitive situation of each business area (status quo)
2. Description of realistic competitive scenarios (best and worse case)
3. Development of measures and action plans for seizing opportunities and fencing off risks
4. Consolidation of business plans on aggregated corporate level
5. Development of a balanced short term and long term agenda concerning hypercompetition
6. Strategy implementation and ad-hoc-roll-out of responsive short-term actions
Being Braced for Hypercompetition: Being Agile, Robust and Responsive

Structure of Sport Marketing

Sports Marketing - Definitions

Kaser/Oelkers (2007, p.12):

„Sport Marketing means using sports to market products“

Shilburg/Quick/Westerbeck (2009, p.15):

„Sport marketing is a social and managerial process by which the sport manager seeks to obtain what sporting organisations need and want through creating and exchanging products and values with others“

Van Heerden (2001, p.93)

„Sport marketing is the specific application of theoretical marketing principles and processes to sport products and services; the marketing of non-sport and sport-related products and services through an association - such as a sponsorship – with sport; and the marketing of sport bodies and codes, their personalities, their events, their activities, their actions, their strategies and their image“
Model of Sports Marketing

**Protagonists:**
- Sporting Organisations (associations, clubs, individuals)

**Products:**
- Sport Product (goods and services)
  - Core Product (match, event, competition)
  - Product Extensions (hospitality, merchandising, rights)

**Type of Sports Marketing:**
- Marketing of Sports
- Marketing Through Sports
  - Sports Advertising (using general sports to promote products)
  - Sports Sponsorship (using associations with specific sporting organisations for a multiple of objectives)

**Target Group:**
- Participants
- Spectators
- Consumers
- Companies

(Source: BühnerNüfer, 2013, p. 43)

Value for Money ...
Competing on Financial and Social Values

**B** Shareholder Value Clubs
- Profit and performance imperative
- Financial portfolio management
- Financial value creation
- Greedy investors and board members
- Sport as an investment
- Return on sports and infrastructure
- Divestment of cash burners

**C** Sustainable Value Clubs
- Shared value logic
- Profit through sustainability
- Long-term objectives and patient capital
- Co-alignment of shareholder and stakeholders’ sources of interest
- Ecological footprint beyond

**A** Non Value Clubs
- Financial and social value destruction
- Dilatant management
- Parochial and short-sighted steps
- Scandal clubs
- Sportive success is paramount to economic soundness
- Overspending and overestimation

**D** Alternative Value Clubs
- Altruistic leadership
- Economic ignorance
- Financial value destruction
- Biased welfare mentality
- NPO-Dilemma
- Goodwill instead of good realization
- Need for managerial professionalism

**Financial value creation**

**Social value creation**

**Corporate Citizenship**

**Corporate Responsibility**
Value Dimensions in Management

1. Shareholder Value [SV]
   - Primary focus: Shareholder
   - EVA = Value added > capital costs
   - SV = Share record + dividends
   - KSF: Market to book value

2. Customer Value [CV]
   - Primary focus: customer
   - CV = Costs / subjective benefit
   - Added Value = Output / input
   - KSF: Customer relations

3. Employee Value [EV]
   - Primary focus: employees
   - EV = Costs / subjective benefit
   - Added Value = Output / input
   - KSF: Human capital, knowledge

4. Sustainability Value [SUV]
   - Primary focus: Welfare
   - SUV = Costs / subjective benefit
   - Added Value = Output / Input
   - KSF: Environment, stakeholder

Cost (price) leadership
- Modest quality standards
- Automation, standardization
- Penetration pricing
- No-frills strategy
- Scale & scope economies
In Search of Blue Oceans

Applying the KANO-Logic to Sports

1. **Threshold / Basic attributes**
   Attributes which must be present in order for the product to be successful, can be viewed as a ‘price of entry’. However, the customer will remain neutral towards the product even with improved execution of these aspects.

2. **One dimensional attributes**
   These characteristics are directly correlated to customer satisfaction. Increased functionality or quality of execution will result in increased customer satisfaction. Conversely, decreased functionality results in greater dissatisfaction. Product price is often related to these attributes.

3. **Attractive attributes**
   Customers get great satisfaction from a feature - and are willing to pay a price premium. However, satisfaction will not decrease (below neutral) if the product lacks the feature. These features are often unexpected by customers and they can be difficult to establish as needs up front. Sometimes called unknown or latent needs.

4. **Enragers**
   Product differentiation can either be gained by a high level of execution of the linear attributes or the inclusion of one or more ‘delighter’ features. But, it should be remembered that customer expectations change over time, and a cup holder in a car may be today’s delighter, but tomorrow it will be expected. Some users of Kano also suggest that an additional set of attributes can be classified as ‘enragers’ – features which annoy the customer (patient).
### Strategic Marketing in a Nutshell

<table>

The Four Domains of Sports Marketing

Theme-based Strategies

- lowest level of integration of sports within the sports marketing

**Target Marketing**
- Budweiser Using Sports Media to Reach Consumers (Super Bowl; Sports Illustrated)
- Cadillac Using Golf Magazine to Reach Upscale Segment
- Cadillac Appealing to Target Market Based on Ability to Fit Four Sets of Clubs in the Trunk

**Product**
- Sports Bars Feature Sports TV Programming as Part of their Product Assortment
- Clothing Featuring a Sports Motif (Men’s Underwear and Tie Featuring Golf Graphics)
- Kodak Film Packaging Featuring Generic Sports Images
- M&M Packaging Featuring Checkered Flag Graphic and Racing Team Labeling
- Crunch ‘n Munch Packaging Featuring a Young Boy Playing Basketball
- Tag Heuer’s Invitational Golf Tournament for Buyers of an Expensive Model of Its Watch
- Visa Signature Credit Card Providing Access to Exclusive Properties (Pebble Beach GC)

**Promotion**
- Detroit Newspaper’s Hospitality Facility at Ryder Cup Competition
- McDonald’s Advertisement Featuring Kids After Winning a Sports Competition
- Sony Advertisement - You Can Enjoy Sports More on a Sony High Definition TV
- New Zealand Radio Station – 99 FM – “Breakfast with Rull” Theme
- Panasonic Laptop Computers and Football – Toughness and Performance
- Gillette and State Farm Insurance Using Virtual Advertising during MLB Broadcasts
- Kraft’s Game Day Cake Recipe during Time Period Preceding the Super Bowl
- Ambush Marketing (Wendy’s, American Express, Pepsi-Cola, and Telecom New Zealand)

**Pricing**
- Bars Offering Discounts to Recreational Sports Participants (softball players)
- Hospitality Industry Offering Discounts to Ticket Holders of Select Sports Events

**Distribution**
- Hard Rock Cafe at Rogers Centre in Toronto
- Big Boy Restaurant at Detroit’s Comerica Park
- Levy Restaurants at Sports Venues (Wrigley Field, Comerica Park)
- Alcohol Beverages at Sports Venues (Mike’s, Casa Vento, & Bass Ale)
- FedEx at Ryder Cup Venue (Oakland Hills)
- Budweiser Distribution in NASCAR Geographic Markets (i.e., Darlington)

## Product-based Strategies

### Product

- NHL Changes in Rules to open up the Game and Eliminate Ties
- MLF’s San Diego Padres’ Spanish Language Radio broadcast
- Luxury Boxes for Large Corporate Customers
- Expensive Premium Seats for Wealthy Fans
- NCAA Football Rules Changes to Speed up the Game
- Signing Star Player to Improve Product (Chicago Bulls Signing of Ben Wallace)
- Sporting Goods with Performance Characteristics (golf clubs, golf balls, tennis rackets, bowling balls)
- Sporting Goods Tailored to Target Market (Smaller Basketball for Female Players)

### Promotion

- Creative Appeals in Advertising (New Balance – “for the love of the game”)
- Internet Site for Dissemination of Information (FIFA, New York Yankees, Plymouth Whalers, Nike)
- Direct Mail (Chicago Bears Season Ticket Renewal Solicitation)
- Newspaper Advertising (Teams and Events (Memphis Grizzlies and the PGA Championship))
- Sales Promotion – Giveaways (Los Angeles Dodgers Bobblehead Dolls; Harlem Globetrotters Ball)
- CD-ROM (Bowling Malls to Prospects Identified through Direct Response Advertising)
- Free Trial (Daily’s 30-Day Complimentary Membership: Golf Products “Demo Days”)
- Discount Coupons (Curves 2-for-1 Offer)
- Free Participation (Coupon for Free Game for Registered League Bowlers)
- Premiums (Golf Magazine Giving a Dozen Titleist Balls to Subscribers)

### Pricing

- Discounts for Member of Recognized Groups (AARP & AAA)
- Group Discounts for Informal Groups (Parties, Students)
- Bundling of Tickets, Food, Beverages, and Other Products (Atlanta Braves Grand Slam Ticket Pack)
- Bundling of Events (Ford Field College Football Package)
- Programs to Make Participation Affordable (USGA’s “First Tee” Program)
- New Lines of Athletic Shoes Selling at Lower Price
- Premium Tickets Sold at Premium Prices (Chicago Cubs Wrigley Field Premium Ticket Service)
- Auction – Price Determined by Bidding (Lenox Lewis Fight; Detroit Tigers On-Deck Seats)

### Distribution

- NHL Expansion to Warm Weather Locations (Miami, Phoenix, Atlanta, Tampa Bay)
- MLB Relocation Decision (Move Montreal Expos Team: to Washington, DC)
- Location of Special Events (2010 World Cup of Soccer in South Africa)
- Competitions in International Markets (NFL Europe)
- Internet Ticket Procurement (Ticketmaster, Stubhub.com, Print-at-Home)
- Alternative TV Distribution (i.e., NFL Sunday Ticket, ESPN2, the Golf Channel, Pay-Per-View)
- Satellite Radio (NASCAR on Sirius Radio)
- Audio and Video Streaming on Internet (i.e., MLB.TV)
- Distribution via Mobile Technology (i.e., Mobile ESPN)
- Construction of Participation Facilities Based on Supply and Demand (Brunswick Bowling Centers)
- Mobile Retail Facility Going to the Customer (Callaway Golf Tour Fit Van)
Alignment-based Strategies

- Sponsorship of non-sports good

Sports-based Strategies
Characteristics of the Sports Industry

Sports industry consists of three different sectors:

- the Public Sector
- the Non-Profit Sector
- the For-Profit Sector
- adjacent and complementary industries
- supportive industries (big data, IT, 4.0-applications, social media, digital devices)
Value Chain of the Sport Industry

| Source: Smith, Aaron: Introduction to Sport Marketing |
Characteristics of the Sport Product

The sport industry provides a very special product.

Therefore understanding sport marketing is not only understanding marketing principles.

It is also understanding the sport market.

It is somehow difficult to define sport markets since they converge towards other markets, industries and customer segments.

Value migration from other industries into the sport, fitness and vitality: i.e. healthcare, media, entertainment, computer science.
Characteristics of the Sport Product

- **Emotion and passion**
  The sport industry deals with a product which is more emotional than hardly any other product. People are often passionate; loyalty and tradition play an important role. Products can be tangible and intangible of bundled.

- **On-field and off-field success**
  Sports organisations do have two different levels of success to consider.
  - On-field success: success in sport competition etc
  - Off-field success: economic and financial success

- **A level playing field**
  ➔ balanced competition
Characteristics of the sport product

- **Collaboration and cartels**
  Sport leagues and competitions cling to regulation in order to keep competitive balance
  - Formula 1
  - Salary Caps
  - Investment Caps

- **Variable Quality**
- **Product and brand loyalty**
  - Low cross-elasticity of demand
  - Identification
  - Blind optimism
- Over-spending and spiralling investment in soccer
- **Fixed supply schedules**
Strategic sport-marketing planning as a process

Source: Strategic Sport Marketing, p.22
Detecting Market Opportunities

- In order to detect market opportunities we have to learn about:
  - external environment
  - Real options and opportunities
  - industry competition and the 5-forces
  - the capabilities of the own institution
  - blue oceans and red oceans
  - business models
  - global value chain coordination
  - leadership and strategy
  - masterplan implementation
In order to analyse and monitor the macro-environmental (external marketing environment) factors that have an impact on an organization, the PESTEL analysis is a proper instrument.

PESTEL stands for:

- Political
- Economic
- Social
- Technological
- Environmental
- Legal

Sometimes PESTEL analysis is reduced to a PEST analysis, where environmental and legal factors are not considered.
Example PEST analysis for PUMA

Puma AG Rudolf Dassler Sport, officially branded as PUMA, is a major German multinational company that produces high-end athletic shoes, lifestyle footwear and other sportswear. Formed in 1924 as Gebrüder Dassler Schuhfabrik by Adolf and Rudolf Dassler, relationships between the two brothers deteriorated until the two agreed to split in 1948, forming two separate entities, Adidas and Puma. Puma is currently based in Herzogenaurach, Germany.

The company is known for its football shoes and has sponsored acclaimed footballers, including Pelé, Eusébio, Johan Cruijff, Enzo Francescoli, Diego Maradona, Lothar Matthäus, Kenny Dalglish, Didier Deschamps and Gianluigi Buffon. Puma is also the sponsor of the Jamaican track athlete Usain Bolt. In the United States, the company is probably best known for the suede basketball shoe it introduced in 1968, which eventually bore the name of New York Knicks basketball star Walt "Clyde" Frazier, and for its endorsement partnership with Joe Namath.

Following the split from his brother, Rudolf Dassler originally registered the new-established company as Ruda, but later changed to Puma.[3]:31 Puma's earliest logo consisted of a square and beast jumping through a D, which was registered, along with the company's name, in 1948. Puma's shoe designs feature the distinctive "Formstripe",[3]:33 with clothing and other products having the logo printed on them.

The company also offers lines shoes and sports clothing, designed by Lamine Kouyate, Amy Garbers and others. Since 1996 Puma has intensified its activities in the United States. Puma owns 25% of American brand sports clothing maker Logo Athletic, which is licensed by American professional basketball and association football leagues. Since 2007 Puma AG has been part of the French luxury group PPR

PESTEL

Political Factors

Primarily, the company started their strategy by making the brand more profitable. This is to build a strong financial foundation. The main changes that had happened are from the accounting practices of the company. During the said changes and process of restructure, there are different political factors that might be considered. One of this is the environmental issues. As of now, more and more individuals and organizations are focusing on different issues regarding the environment. The fact that the company will be outsourcing from other countries, there are different international as well as local laws that must be considered in order to maintain the continuous process of the development. The trade restriction and tariffs are also another of the most important political factors that must be considered. This is due to the fact that the company already followed the strategy of Adidas and Nike in outsourcing their production in Asia. The primary reason for outsourcing of production is because, most of Asian countries offer lower labor cost and other taxes compare to Europe and America. In terms of political stability, due to the fact that the company is a multinational company that produce as well as sell their products in different parts of the world, there different political issues and events in other local partners that can affect the overall performance of the company.

Economic Factors

The said situation in the political factors, are somewhat connected with the different economic factors that might affect the development process of the company. Primarily is the situation of the home economy or the economic situation of Germany, in terms of monetary issues, stock exchange and the likes. The economy trends of happenings in the home economy are also important, so as the economic situations and trends of the partner countries. This is due to the fact that, this political factor has a great impact to the social mentality of the possible customers. The different employment laws in different countries must also be considered, this is due to the fact that different countries has their different cultures that might affect their beliefs as well as regulations regarding the human resource aspect of any company.
PESTEL

Social Factors

There are more social factors that might affect the development process of the company more than any other factors. This is due to the fact that social factor has the most important impact or effect to the taste or demand of the customers regarding one product or service. The fact that more and more people are into sports is a big chance or advantage for the company, because there will be a huge market for them. Another important thing is that sport is considered as one of the most important sector in the tourism industry, which considered as the most successful industry nowadays. On the other hand, sports are also considered as a form of exercise, for those who wants to have fit and healthy body.

One of this is the lifestyle trends; there have been a big change in the sports sector of the world. The sports sector has been constantly evolving in terms of personal tastes, popular games as well as technologies (Plunkett Research, Ltd 2008). There are different sports that are gaining popularity such as different extreme sports. The popularity of those new sports such as diving, skateboarding and extreme bike must be considered as one of the most important factors in the strategy-making and management of the company. It is also important to consider more the needs of women in sports wear, this is due to the fact that more and more women are going to sports this past few years. This can be seen in the dramatic floodtide of talented women athletes onto the American playing fields alone. In the USA, there are over 33% of female students in high school play sports. Furthermore, the population of those women who participates in the university sports has increased thrice. As of now, women are competing in almost every sport (US Diplomatic Mission to Germany 2008).

Technological Factors

In terms of the technological factors, it focuses on the series of R&D activities as well as applications of automation and new technologies, most especially those that are connected to the Internet. Another important thing that might affect the development is the maturity of the technology; this is due to the fact that technology is considered as restless in terms of development. Furthermore, the global communication is also another important aspect, this is important because the company is operating in different part of the globe. It is also important to consider the different laws like the intellectual property issues.
Industry Competition – 5 Forces Model

The five forces Model, developed by Michael Porter, identifies and analyzes 5 competitive forces that shape every industry, and helps determine an industry's weaknesses and strengths.

The 5 Forces are

1. Competition in the industry
2. Potential of new entrants into industry
3. Power of suppliers
4. Power of customers
5. Threat of substitute products

SWOT Analysis

Based on the results of the PEST(EL) analysis and a comparison of the results with the internal capabilities of an institution is carried out. An appropriate instrument to do so is the SWOT analysis.
# Example: SWOT Analysis PUMA

<table>
<thead>
<tr>
<th>STRENGTHS</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Puma is established over 90 countries and employs around 8300 employees all over the world.</td>
</tr>
<tr>
<td>2. Puma is the main producer of enthusiast droving shoes and racing suits in both Formula One and NASCAR.</td>
</tr>
<tr>
<td>3. Puma has entered into partnerships with famous companies like Ferrari and BMW.</td>
</tr>
<tr>
<td>4. Puma brand is very innovative and has a very rich Research and Development team. The Company produced the first screw boots for football and “Mexico 68” with the innovative brush soles, which were the most comfortable running shoes.</td>
</tr>
<tr>
<td>5. Puma has an excellent brand name throughout the world.</td>
</tr>
<tr>
<td>6. The brand has excellent management and marketing strategies and has the advertised the products very well and eye-catching throughout the world.</td>
</tr>
<tr>
<td>7. Puma has entered into sponsorships with various players and teams in different sects of the sporting industry.</td>
</tr>
<tr>
<td>8. Puma was the official sponsor of the FIFA football World Cu</td>
</tr>
</tbody>
</table>
| Weakness | 1. Puma has tough competition and limited market share compared to Nike and Adidas  
2. The company has less financial strength compared to the other brands in the industry |
| --- | --- |
| Opportunity | 1. The company can attain more sponsorship as more international events in the sporting industry are taking place.  
2. The company can start entering the lifestyle section of the industry |
| Threats | 1. The current economic situation is very bleak, hence expansion is minimal.  
2. There is extensive completion from existing players an new players which is growing in the industry.  
3. Imitations of the brand is extensively increasing |

Mission, Objectives, and Strategic Intent

Based on the external and internal review, the institution has to set up
- vision
- mission statement
- organizational objective

The mission statement provides direction for the sport, defining and clarifying its meaning and reason for existence.

In other words, the forthcoming parts of the business plan have been developed because of your mission.

The mission statement is an instrument to evaluate the quality of ambitions.
Functions of the mission statement

A good mission statement tells people what the sports business stands for.

Nature and intentions of your business should be mentioned.

The Chicago Bulls organization is a sports entertainment company dedicated to winning NBA Championships, growing new basketball fans, and providing superior entertainment, value and service.

"To bring inspiration and innovation to every athlete* in the world."
Mission statements ...

... are simple, but not necessarily short.

... tone and contents should fit to your vision.

... do not copy other companies statements.

... inspire and motivate (Komatsu: Encircle Caterpillar, Nike: Just Do IT!)

... are the bedrock and foundation for strategy development

... address all relevant stakeholders

... are the strategic glue of an organization

... must with the culture of an organization

... employ stretch goals as a means to outperform the market
Operational Objectives (SMART-Rule)

- Operational goals refer to the broad aims a sports organisation tries to achieve.
- Mission and objectives

**To be the Fastest Sports Brand in the world.** The company’s mission not only reflects PUMA’s new brand positioning of being Forever Faster, it is also be the guiding principle for the company expressed through all its actions and decisions. Our objective is to be fast in reacting to new trends, fast in bringing new innovations to the market, fast in decision making and fast in solving problems for our partners. Fast is also how the company will pursue the strategic priorities of PUMA in the short and mid-term: **Brand, Product and Sales.**
Goals and Objectives

**Goal**: specific target, an end result or something to be desired. major step in achieving the vision of the organisation. tells us, where the institution wants to be

**Objective**: measure of change in order to bring about the achievement of the goal.

**SMART**: specific, measurable, attainable, realistic, time-focused

**BSC**: learning & growth, processes & activities, markets & customers, financials & value creation

**BMC**: business model canvas as a means to get things done
## Goals and objectives (Ex.)

<table>
<thead>
<tr>
<th>Example Goal</th>
<th>Example Objective</th>
</tr>
</thead>
<tbody>
<tr>
<td>50 qualified and active coaches</td>
<td>Increase qualified/active coaches by 50% by December 2005</td>
</tr>
<tr>
<td>Membership base of 500 persons</td>
<td>Increase membership by 25% by December 2005</td>
</tr>
<tr>
<td>Profile in the community as a club of excellence in health and safety</td>
<td>Reduce incidences of injury on the field by 50% by December 2005</td>
</tr>
<tr>
<td>Achieve financial independence</td>
<td>Increase sponsorship by 100% by December 2005</td>
</tr>
</tbody>
</table>

Sport Consumers Decision Process

Source strategic sport marketing p. 55
Types of Sport Consumers

- **Sporting Goods Consumers**
  buy sport products, equipment, apparel, books etc.

- **Sport Services Consumers**
  demand for a sport-related service or experience, e.g. gambling, training, health activities

- **Sport Participants**
  are actively engaged in sports, e.g. tennis players, sport club members

- **Sport Supporters and Spectator, fans**
  demonstrate an active interest in sports.

- **Social Sports Media Activists**
  as a new species of consumers
Consumers and Fans

Fans and customers do have different behavior.

Customers could eventually be loyal

Fans are enthusiastic; they identify with their team
Fans

- **Identify with** and follow the behavior of the **team or individual players** on that team, on and off the field, e.g. via team websites, newspapers, television, radio, wireless emails, etc.).
- **Purchase licensed merchandise**, e.g. jerseys, caps, mugs, etc. promoting the team.
- **Donate or pay extra** for permanent seat-licenses (PSLs) in order to buy season tickets.
- **Travel** to see games of that team outside of his local market.
- **Devote significant social time** attending, watching and discussing the team with others devoted to the same or other teams.
Identification vs. Loyalty

**Loyalty** is the repeat purchasing of a good or service by a consumer. A loyal customer is sensitive to differences in brands and prefers a brand or set of brands over others (see Odin, Odin and Valette-Florence 2001).

**Identification** is when an individual reacts to events that occur to the team or player as if the events happened to him or her (Kagan 1958).
## Major differences Marketing/Sport Marketing

<table>
<thead>
<tr>
<th>Dimension</th>
<th>Goods/services</th>
<th>Sports &amp; Entertainment</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Purchasers</td>
<td>Customers</td>
<td>Fanatics</td>
</tr>
<tr>
<td>2. Adoption</td>
<td>Loyalty—repeat purchasers of the same brand (viz., lack of switching behavior)</td>
<td>Psychological identification with individuals and teams that goes beyond mere loyalty</td>
</tr>
<tr>
<td>3. Promotion &amp; Media</td>
<td>Owner pays media for promotion</td>
<td>Fans, sponsors, and media pay to promote team/event</td>
</tr>
<tr>
<td>4. Distribution Channel</td>
<td>Static; More site-limited</td>
<td>Mobile; more flexible</td>
</tr>
<tr>
<td>5. Product</td>
<td>Adapted</td>
<td>Global</td>
</tr>
<tr>
<td>6. Price</td>
<td>Customer pays a given price for good/service</td>
<td>Two-part: Fans frequently pay for the right to pay for tickets</td>
</tr>
<tr>
<td>7. Facilities</td>
<td>Corporate owner buys/builds own facilities</td>
<td>Government (taxpayer) typically pays for facilities</td>
</tr>
<tr>
<td>8. Competition</td>
<td>Individual branding in competitive markets</td>
<td>Cooperative contractual relationships &amp; monopoly power &amp; anti-trust exemption</td>
</tr>
<tr>
<td>9. Exchange</td>
<td>Principally economic exchange</td>
<td>Principally social exchange</td>
</tr>
<tr>
<td>10. Employees</td>
<td>Contractual power favors owners</td>
<td>Contractual power favors employees (players)</td>
</tr>

Sports Marketing Strategy

- Market Segmentation
- Targeting
- Positioning
Market Segmentation

Assumption: Markets consist of market segments.
- All items of a market segmentation will behave similar with regard to their purchasing behaviour.
- Items from different market segments will behave different with regard to their purchasing behaviour.

Segmentation criteria have to be:
- measurable
- accessible
- substantial
- actionable

[Diagram showing different segmentation criteria such as geographic, demographic, psychographic, and behavioral with specific examples like "Customers within 10 miles of the M25", "A Level & University Students", "Customers wanting a value for money impulse buy", and "Customers who prefer to buy fairtrade food".]
Marketing Information Systems

Source: Shilbury et al.: Strategic Sports Marketing, p. 64
Assessment methods

Methods to gain primary data

- Observation
- Survey
- Focus groups
- Personal interviews
- Field trials
Targeting

After segmenting the market, firms will need to develop measure for sector attractiveness and choose their target segments.

Factors that affect sector attractiveness are:
- Segment size and growth
- Structural attractiveness
- Company objectives and resources
Targeting Strategies

There are three general strategies for selecting your target markets:

**Undifferentiated Targeting:**
- Mass Market Approach: One product fits all needs. There is no specific product variation

**Concentrated Targeting:**
- focuses on selecting a particular market niche on which marketing efforts are targeted.
- focusing on a single segment so it can concentrate on understanding the needs and wants of that particular market intimately.
- Small firms often benefit from this strategy as focusing on one segment enables them to compete effectively against larger firms.

**Multi-Segment Targeting:**
- is used if a firm needs to focus on more than one well defined market segment and want develops different strategies for each of them.
Determining strategy

- Boston Matrix

- **QUESTION MARKS**
  Low Market Share and High Market Growth
  Don’t know what to do with opportunities; decide whether to increase investment.

- **STARS**
  High Market Share and High Market Growth
  Doing well; great opportunities.

- **DOGS**
  Low Market Share and Low Market Growth
  Weak in market, difficult to make profit.

- **CASH COWS**
  High Market Share and Low Market Growth
  Doing well in no growth market with limited opportunities.
Positioning

Three steps to position your product:

1. Identification of competitive advantages (competitive differentiation)
2. Selection of the right competitive advantage (creation of an unique selling proposition)
3. Communication and delivery of the chosen position

Determining Strategy

Ansoff Matrix

- Existing Markets
- New Markets

- Existing Products
- New Products
- Market Penetration
- Product Development
- Market Development
- Product and Market Diversification

- existing_products
- new_products
- market_penetration
- product_development
- market_development
- product_and_market_diversification
Marketing of Sports – the Marketing Mix

- Product/Brand
- Pricing
- Place
- Promotion
- Physical evidence
- People
- Process
Product

A product is what a business offers to satisfy needs; could be either goods or services

Sports products could be

- **Goods**, e.g. running shoes, tennis rackets or sports clothing
- **Facilities**, e.g. tennis courts, sports arenas etc
- **Services**, e.g. a tennis lesson or a guided tour in the mountains, or the preparation of skies
- **Events**, e.g. sports competition
- **Programmes**, e.g. an aerobic class or a program to gain a certain sport licence
Sport as a Service

Sport itself is considered to be a service, because it is
- intangible
- inseparable with regard to consumption and production
- heterogenous
- perishable

The Sports product Continuum

Branding

What is a brand?
A brand can be a name, a design or a symbol that stands for a certain company, club, etc.

What makes a good brand?
It is
- short
- positive
- easy to remember
- easy to recognize
- Unique
Sports brands
Price

- amount customers pay for a product.

- Pricing is the process of establishing and communicating to customers the value or costs of goods and services.

- Case Study: „Pricing Valued Membership Packages at Victory“
## Pricing Strategies in Sports

<table>
<thead>
<tr>
<th>Type of charge</th>
