AI and Teaching/Learning Romance Languages

When and where	
November 3rd 2023	After a brief review of potentialities, challenges and possible tools based on Artificial Intelligence for language learning, our guest Prof. Dr. Esperanza Román Mendoza (Virginia, USA) will guide us through a group work session followed by discussion, questions, and future perspectives for the implementation of A.I.-based tools in the classroom.
9am – 12pm (noon)	
Am Neuen Palais	
1.09.2.12	We will also use Spanish, French and Italian during our group sessions.
	A course has been created in Moodle for communication, questions, and pre-workshop work. To register, contact irgassi(a)uni-potsdam.de
Contact: irgassi@uni-potsdam.de	*Language teaching colleagues and students in Teacher Training Programmes for French, Italian or Spanish are specially encouraged to participate.*
	(Moodle course: https://moodle2.uni-potsdam.de/course/view.php?id=39371)
