ABSTRACT

'UNIQUENESS'

VARIANCE

THINGS TO IMPROVE

IN YOUR SCIENTIFIC PAPER

- Precise word choice in titles
- Consize technical words
- Focus on what I am studying in the title
- ^{use} Words that call the attention. AI. Machine learning... -
- make sure your title makes sense
- SHORT SENTENCES
- Keep it simple and use clear words
- use your flow of writing (don't bother with details)
- use same tense
- use active voice whenever possible, and use consistent voice
- USE Spell-checking
- USE CLEAR MATH LANGUAGE
- use attractive abbreviations (AA) [if you invent some]
- be open and flexible for changes

THINGS TO AVOID IN YOUR SCIENTIFIC PAPER

- too many words in title
- Fill words and redundant terms
- AVOID LONG SENTENCES
- Don't talk about 'facts'
- Avoid using the same words
- EDITING TYPOLOGICAL MISTAKES ALL THE TIME
- changing tenses ; active / passive voice
- no fill sentences without information
- Avoid complicated / posh words
- Avoid extensive lists
- do not overdo 'important' or 'significant'
- Avoid personal opinion eg. relevant comment...
- AVOID USING HUGE, LARGE... → USE NUMBERS
- strange acronyms of your methods
- Avoid repetition
