

New Year's Reception 2021 | Honoring of Outstanding Athletes

Film Transcript

Dear colleagues,

Dear friends and supporters of the University of Potsdam,

This is Annika-Marie Fuchs, javelin thrower, and this is Marvin Dogue, modern pentathlete. Both are students of the University of Potsdam and at the same time top athletes. They represent a total of 39 enrolled competitive athletes who have succeeded in combining their university studies and their competitive sport. They also represent numerous other students who compete for the University of Potsdam in international and national university competitions.

In recent years, the Athletes' Reception also served to honor the athletic achievements of students. None of this can take place this year for the sake of our health and theirs. No personal exchange of ideas. No cozy get-together in an informal and friendly atmosphere. Nevertheless, we would like to thank all the representatives of the partner institutions involved for their cooperation in a solution-oriented manner, and congratulate our athletes on their individual athletic successes in 2020.

Thank you very much.
