Intern/Working Student (f/m/d) - SAP Sustainability Engagement in New Ventures & Technology

About the team

Within the New Ventures & Technologies (NVT) organization, the mandate of the Sustainability Engagement team is to support the digital sustainability transformation of SAP customers by E2E orchestration of ecosystem innovation, government funded projects, academia and accelerate organic innovation incubation with a holistic focus on sustainability. The SAP Sustainability Engagement team, located in several locations around the globe, works closely with product teams and stakeholders across the entire internal and external value chain to orchestrate innovation.

As part of our innovation team, you will work closely with our team lead and specific team members to ensure smooth operations, improve existing processes and support ongoing projects. This is an excellent opportunity for ambitious candidate to support a team who builds the future sustainability solutions for SAP and learn firsthand by working very closely with leadership.

Expectations and Tasks

- Manage office and operations of Head of Sustainability in SAP New Ventures & Technology
- Organize team meetings and workshops
- Build meaningful content (Power Point) for leadership
- Support one or two dedicated innovation projects depending on your background and interest
- Support with quarterly reporting and strategy
- Ability to understand, visualize and optimize/simplify the operational processes of our cross-disciplinary team
- Portfolio management: Establishing management transparency across all projects, programs, and operational aspects of the team

Education and Qualifications / Skills and Competencies

- You are a currently enrolled student at a university or a university of applied sciences
- Excellent teamwork and communication skills
- Ability to work independently, creatively, and proactively
- Curiosity and enjoyment of working with people who are passionate about their work
- Interest in digital innovation, sustainability and operations/strategy
- Academic background: Industrial engineering, business informatics, innovation management, design/user research and related fields of study – Bachelor and Master are both welcome
- Good skills in Microsoft office (especially Outlook, Power Point and Excel)
- Languages: fluent English and German
