

Time	Speaker	Title
09:15	Alice Petzold (Evolutionary Genomics)	Resolving Amphibian Biodiversity Using Museomic Approaches
09:30	Markus Reichert (Vegetation Ecology & Conservation)	Spatio-temporal patterns in biodiversity and human linguistic diversity
09:45	Detlef Groth (Bioinformatics)	St. Nicolas House Analysis for your Variables
10:00	Marco Drexelius (Physical Biochemistry)	Fluorescence Lifetime Imaging of membrane proteins
10:15	Sebastian Marquardt (Molecular Biology)	Non-coding RNA biology
10:30 - 11:00		
11:00	Matija Stanic (Plant Physiology)	Elucidating the role of SABRE in coordinated PIN2 polarity in <i>Arabidopsis thaliana</i>
11:15	Michael Lenhard (Genetics)	Haploid competition in flowering plants
11:30	Adrian Dingler	Plants in Elevation and Time: Evidence for Vegetation Shifts in the Austrian Alps over the Past Decade
11:45	Elke Dittmann (Microbiology)	Harnessing the potential of cyanobacteria to produce bioactive natural products
12:00	Petra Wendler (Biochemistry)	Structural transitions in the stepwise assembly of proteasome core particles
12:15	Lunch	
13:30 - 14.30 Biology Career Options (Alumni Session)		
	Heike Sprenger	Bundesamt für Risikoforschung
	Hjördis Czesnick	Ombudsgremium für die wissenschaftliche Integrität in Deutschland (OWID)
	Tino Barchewitz	Teamleiter Mikrobiologie, IGV Institut für Getreideverarbeitung GmbH Nuthetal
14.30 - 17.00 Poster Session		
	in parallel to poster session: Coffee and Cake	
17.00- open end	Beer, Wine and Snacks	

Rooms

Science talks in the morning will take place in 2.27.1.01.

Career talks in the afternoon will take place in 2.27.1.01.

The poster session will take place in the foyer in building 26.
