

Student Helper Position in the Molecular Biology Group

We are looking for an enthusiastic and highly motivated student to perform various molecular biology and lab works. You will assist in the routine lab work of the department and in the “Quinoa abiotic stress responses” project.

The position is available in the [AG Müller-Röber, Institute of Biochemistry and Biology](#), from 01.08.2019 (max. 19 hours per week). The days/hours of work are flexible so they can be set according to your study schedule. Note, that for the routine part of the work you will need to arrange fixed days as well.

Applicants must be currently enrolled as a student. The position will initially be for 3 months with the possibility of further extension.

We expect that you

- have experience with working in a molecular biology laboratory environment
- are structured and good at prioritizing your work tasks
- are helpful and friendly
- able to speak English

Please send applications in English to Dr. Iman Tabatabaei via e-mail: Tabataba@uni-potsdam.de. Applications should include a CV (including molecular methods learned during the studies).

Looking forward to hear from you!

Potsdam, 21.06.2019
