Vacancy

Student | Research Assistant
Reference number: 005/2018
10 hours per week or more

The Chair of Business Informatics, Social Media and Data Science of the University of Potsdam offers a position as a student | research assistant (SHK | WHK with or without degree) for 10 or more hours per week starting from **August 30, 2018 or earlier**. The student research assistant will work for research projects of the **German Internet Institute** in the research group "**Digital technologies and well-being**". The group studies the effects of digitalization on psychological outcomes and individual behavior with methods such as **behavioral experiments** and **machine learning**.

Your office will be at the German Internet Institute at the center of Berlin at Hardenbergstraße 32, 10623 Berlin (near station Zoologischer Garten).

We offer:
• Opportunity to participate in research activities
• Working in collaboration with a young and international team
• Flexible working hours, working remotely

Your tasks:
• Supporting in planning, conducting and analyzing behavioral experiments
• Supporting in analyzing large data sets, e.g. online user data
• Literature search

Requirements
• Student of economics, management, computer science, statistics, psychology, or related field with quantitative background
• Currently enrolled in master's program
• High interest in participating in research in the fields of behavioral economics, data science, machine learning, decision making
• Experience in using R or Python
• Excellent English language skills

Please send your application documents (cover letter, CV, copies of certificates) via e-mail to Ms. Annika Baumann (annika.baumann@uni-potsdam.de) by **July 01, 2018.** Please state the above mentioned reference number in your application.

About the German Internet Institute
The **German Internet Institute** investigates the interactions between digitalization and society. The project is funded by the Federal Ministry of Education and Research (BMBF). The consortium is coordinated by the Berlin Social Science Center (WZB) and includes the four Berlin universities – Freie Universität Berlin, Humboldt-Universität zu Berlin, Technische Universität Berlin, Universität der Künste Berlin – as well as the Universität Potsdam and the Fraunhofer Institute for Open Communication Systems (FOKUS).
